A love letter to the game of baseball from one of America's foremost scribes Bob Ryan has scored every baseball game he's attended, at every level, since the start of the 1977 season. It's a deeply personal tradition still going strong at more than 1,400 games and counting. The tattered scorebooks he's filled are worn from age, travel, and countless summer days, but their grids and scrawled symbols tell the stories of milestones, rivalries, rare historic achievements, and more. In *Scoring Position* captures the incomparable spirit of baseball, with its infinite possibilities and madcap anomalies. Ryan, alongside baseball historian and statistician Bill Chuck, has scoured his scorecard archives for the most singular events—a switch-hitter being hit by a pitch from both sides of the plate in the same game; a player batting for the cycle off four different pitchers; even back-to-back pinch-hit home runs with two outs in the 9th. Featuring some of the game's biggest names and wildest scenarios, this is a fascinating romp through baseball history, exuding a pure zeal for this sport that fans of all teams will recognize in themselves. Part of the collection at the library of the National Baseball Hall of Fame and Museum, this volume also features reproductions of dozens of scorecards from Ryan's collection.

As history proved, 1969 was the pinnacle of performance and styling for the first-generation Chevy Camaro. Author and muscle car expert Robert Kimbrough provides a comprehensive examination of the all-time classic 1969 Camaro SS in Volume No. 4 of CarTech's In Detail series. Camaro: Fifty Years of Chevy Performance chronicles the first fifty years of Chevrolet's iconic Camaro through fascinating photography, history, and commentary about this legendary pony car. The early 1960s saw American auto manufacturers desperately trying to sell cars to the emerging baby-boom market. Chevrolet attained some success with its sporty Corvair Monza. Ford responded first with a sportier Falcon, then with its grand-slam, home-run pony car, the Mustang. At first, Chevrolet hesitated to abandon the technologically advanced Corvair, but when it finally entered the pony car market in 1967, its new Camaro instantly became one of the most iconic cars of the classic muscle-car era. When muscle cars went dormant for a generation, it was once again the classic pony cars that jump-started American performance. The battle that raged between Camaro and Mustang in the 1980s rejuvenated the US auto industry's interest in high-performance muscle cars. The Camaro lost its way in the 1990s, with Chevrolet pursuing technological advances and Ford pursuing classic American muscle. As was the case in the 1960s, Ford's muscular pony car trounced Chevrolet's technologically advanced sporty car in the race that mattered most: showroom sales. The Mustang thrived while the Camaro left the scene. Fortunately, that departure was only temporary. Chevrolet introduced a twenty-first-century Camaro in 2010, and it has become one of Chevrolet's most popular models. With stunning photography from author Mike Mueller and never-before-seen archival photography from partner General Motors, Camaro: Fifty Years of Chevy Performance chronicles the Camaro's rich history, from the early attempts to reach the youth market in the 1960s, through the potent and turbulent years of the classic muscle-car era, the resurgence of muscle in the 1980s, the sad decline of the 1990s, and the triumphant rebirth of the new car in this new millennium.
