The BMW 2002 series of cars, which includes the 1602, 1802, and 2002, was one of the most successful series ever produced by the Bavarian

automaker, with more than 800,000 examples built. A surprising number of these are still on the road, as the little Bimmer has proven itself a reliable as well as stylish performer. The Restorer's Reference BMW 2002 1968-1976 provides restorers, collectors, and enthusiasts all the key information necessary to correctly refurbish these classic German coupes. As the value of these cars continues to rise, it's more important than ever to ensure accuracy in restoration and preservation. From exterior colors to the myriad small details of the engine and interior, The Restorer's Reference BMW 2002 1968-1976 covers all of the details that add up to a correct, original car.

The chaise-longue by Le Corbusier, the radio by Rams, the chair by Eames – designers make things into cult objects and become icons themselves. But who knows which coupé was

designed by Frua, which limousine by Engel, which station wagon by Opron? For a long time, car design was considered to be anonymous, the designers stood in the shadow of the perception of the design, even though their designs can be found on the roads in millions. This richly illustrated book captures the origin of a profession and maps the development of car design based on a comprehensive introduction and the career biographies of over 200 selected designers who contributed to the design of cars and many different associated products in the USA, Europe, and Japan between 1900 and 2000.
