"A proper travelogue - a joyful, moving and stereotype-busting ride." - National Geographic Traveller, Book of the Year In 2011, at the height of tension between the British and Iranian governments, travel writer Lois Pryce found a note left on her motorcycle outside the Iranian Embassy in London: ... I wish that you will visit Iran so you will see for yourself about my country. WE ARE NOT TERRORISTS!!! Please

come to my city, Shiraz. It is very famous as the friendliest city in Iran, it is the city of poetry and gardens and wine!!! Your Persian friend, Habib Intrigued, Lois decides to ignore the official warnings against travel (and the warnings of her friends and family) and sets off alone on a 3,000 mile ride from Tabriz to Shiraz, to try to uncover the heart of this most complex and incongruous country. Along the way, she meets carpet sellers and drug addicts, war veterans and housewives, doctors and teachers - people living ordinary lives under the rule of an extraordinarily strict Islamic government. Revolutionary Ride is the story of a people and a country. Religious and hedonistic, practical and poetic, modern and rooted in tradition - and with a wild sense of humour and appreciation of beauty despite the comparative lack of freedom - this is the true story of real contemporary Iran.

At nineteen, Ashley Fiolek is already the top female competitor in a tough men's sport: motocross, one of the most dangerous extreme sports in the world. Since going pro in late 2007, Fiolek has taken gold at the X Games, twice won the American Women's Motocross Championship, and become the first woman in American motocross history to be signed to a factory team—the highest echelon of industry backing. These remarkable achievements seem even more extraordinary because Fiolek was born profoundly deaf, a handicap that makes everyday life difficult . . . and competition on the track downright treacherous. But Fiolek has never let her disability stand in the way of her dreams, nor has she allowed her gender to limit her career. One of the sport's most talked-about stars, she's changing the way the industry views women. *Kicking Up Dirt* is the remarkable true story of Ashley Fiolek's ride to greatness—the inspiring tale of a courageous young woman's determination to succeed in the face of truly challenging obstacles.

This publication presents a harmonized approach to quality assurance in the field of computed tomography applied to both diagnostics and therapy. It gives a careful analysis of the principles and specific instructions that can be used for a quality assurance programme for optimal performance and reduced patient dose in diagnostic radiology. In some cases, radiotherapy programmes are making a transition from 2-D to 3-D radiotherapy, a complex process which critically depends on accurate treatment planning. In this respect, the authors also provide detailed information about the elements needed for quality assurance testing, including those relating to accurate patient characterization as needed for radiotherapy treatment planning.
