TRB Special Report 207: Transportation Professionals: Future Needs and

Opportunities Aware assesses future professional needs in highway and mass transit agencies in federal, state, and local government. This study also examines the role of consulting firms in satisfying the future professional requirements of highway and transit agencies. A large number of professionals who entered highway and

mass transit organizations during the past 30 years are expected to retire soon, particularly those who helped build the nation's Interstate system. Unless there is careful planning, this loss of professional capability could impair the ability of these agencies to maintain the nations's

transportation system effectively. **Subject Guide to Books in Print** Taylor Trade Publishing Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the
