New York Court of Appeals. Records and Briefs. Geoffrey Young

Chris Scott and his band of globetrotting contributors and specialists have put together the definitive manual for planning and undertaking a vehicle-dependent overlanding adventure across the wilds of Africa, Asia and Latin America. The *Overlanders' Handbook* is written in the same entertaining yet clear jargon-free English for which Chris's other books are known – it doesn't assume you know your plug gap from a radiator cap. Planning – When to go; typical costs; documentation; sponsorship; early overland journeys. Vehicle choice and preparation – The *Overlanders' Handbook* is the most comprehensive account in print, covering everything from adapting a cheap car to equipping a campervan or 4x4 for months on the road, or even building and outfitting your own accommodation module to mount on an all-terrain truck chassis. Life on the road – How to handle dodgy borders, haggle over a

purchase, treat a dodgy stomach and cope with crazy driving conditions. Guidance on wild camping; navigation and mapping strategies; onward shipping; advice for solo women overlanders; travelling with children or with pets; vehicle repairs and troubleshooting; and off-road driving techniques. Continental route outlines – Guidelines on both popular and obscure overland routes through Africa, Asia and Latin America. Includes fuel prices, easiest borders and best seasons, visa strategies, danger zones and regional highlights. *Overlanders' Tales* – Half a dozen accounts of global adventures lasting months or even years – in vans, 4x4s and all-terrain trucks – from contributors aged from 9 to 69. The W201 was a compact saloon designed to address both concerns about fuel economy generated by the first oil crisis in the 1970s and competition for sales from the BMW 3 Series. Many doubted that Mercedes could deliver a compact car whilst retaining their traditional qualities. But the W201 soon won them over. For here was a car that was a real Mercedes in the tradition of the time - it was just smaller. With around 200 photographs, the book features the reasons behind the need to build a new compact saloon in the 1980s. It covers the styling, engineering and specification changes introduced over the lifetime of the model; gives full technical specifications, including paint and interior trim choices and production tables and vehicle number sequences. The story of Mercedes' long and exciting struggle to win the German Touring Car Championship with the 190 is covered. There is a chapter on the special US variants and, finally, a chapter on buying and owing a 201-series Mercedes.

Poetry. "I am spending my 39th year practicing uncreativity. On Friday, September 1, 2000, I began retyping the day's NEW YORK TIMES word for word, letter for letter, from the upper left hand corner to the lower right hand corner, page by page." With these words, Kenneth Goldsmith embarked upon a project which he termed "uncreative writing", that is: uncreativity as a constraint-based process; uncreativity as a creative practice. By typing page upon page, making no distinction between article, editorial and advertisement, disregarding all typographic and graphical treatments, Goldsmith levels the daily newspaper. DAY is a monument to the ephemeral, comprised of yesterday's news, a fleeting moment concretized, captured, then reframed into the discourse of literature. "When I reach 40, I hope to have cleansed myself of all creativity"-Kenneth Goldsmith.
