Re: 1987 Crusader 350 ci. 270hp w/ V-drive : opinions? Very solid and reliable setup if maintained. My Silverton has the same Crusader small blocks but with straight shaft Velvet Drives. V-drives are reliable but have more moving parts, thus more to go wrong. In some boats they can also be difficult to service without pulling an engine.

I can plane at 2000RPM in my new to me 1987 36' Mainship 20K semi-displacement hull which will produce about 16mph. The boat seems to run well there but I've had advice that the engine is working too hard cruising at such a low RPM. The prop is OEM. Original mainship manual suggests a cruising speed of +/- 20 mph with top end at

30mph. I'm interesting in hearing opinions.

In a boat with a 260 Volvo 5.7 engine and  
Volvo outdrive, can the engine be successfully  
replaced with a 350 Crusader engine, using the  
same Volvo outdrive? The implementation of  
ethanol-based fuel is spreading rapidly  
throughout the United States. The end user of  
our engines might well be concerned regarding  
the use of this fuel. As such, Crusader Engines  
provides the following policy ...
