My boat has a 1987 Volvo Penta AQAD31 diesel engine with a duoprop leg. This engine has a crankcase filter, which is a bad design for three reasons: 1) If the filter clogs, the engine dumps all its oil through the bypass valve, which is

dangerous. 2) The filter is right in front of the air filter and oily mist from the filter clogs the air filter. Volvo Penta Sterndrive Parts - Wholesale Marine Find Your Engine. Drill down to the year, horsepower/liter, model number and engine section to get an online inventory of original and aftermarket OMC boat parts. We carry parts for OMC

inboard, OMC stern drive and OMC outdrive. Choosing the Correct Parts. Your OMC model number is the key to finding the correct parts for your motor or outdrive.
