For more than thirty years, the History of Cartography Project has charted the course for scholarship on cartography, bringing together research from a variety of disciplines on the creation, dissemination, and use of maps. Volume 6, Cartography in the Twentieth Century, continues this tradition with a groundbreaking survey of the century just ended and a new full-color, encyclopedic format. The twentieth century is a pivotal period in map history. The transition from paper to digital formats led to previously unimaginable dynamic and interactive maps. Geographic information

systems radically altered cartographic institutions and reduced the skill required to create maps. Satellite positioning and mobile communications revolutionized wayfinding. Mapping evolved as an important tool for coping with complexity, organizing knowledge, and influencing public opinion in all parts of the globe and at all levels of society. Volume 6 covers these changes comprehensively, while thoroughly demonstrating the far-reaching effects of maps on science, technology, and society—and vice versa. The lavishly produced volume includes more than five hundred articles accompanied by more than a thousand images. Hundreds of expert contributors provide both original research, often based on their own participation in the developments they describe, and interpretations of larger trends in cartography. Designed for use by both scholars and the general public, this definitive volume is a reference work of first resort for all who study and love maps.

No other cars embody automotive passion better than those produced by Ferrari. From the record-setting Formula One race cars produced by Scuderia Ferrari to the exquisite road cars created in Maranello, Italy, Ferrari has produced some of the most sensuous vehicles ever created. Exquisitely

illustrated, Ferrari: Stories from Those Who Lived the Legend tells the complete story of a car like no other. Sixty years after Ferrari blazed onto the scene, this big book takes us back to the world where the car was created. Master photographer and automotive writer John Lamm tells the Ferrari story through the words of the people who made the history. In extensive interviews with those who lived the story of Ferrari, from its founding days right up to our own, Lamm gives us a thrilling, behind-the-scenes look at how automotive history was made. Virtually an oral history of the world's most iconic sports car, Ferrari: Stories from Those Who Lived the Legend is also a treasury of historic and detailed modern images--what any reader lucky enough to open it up might expect--a hell of a ride. Chapters include: The 1940s Ferrari in the 1940s The 1950s Production Cars Robert M. This comprehensive pictorial overview of  
Rover cars and car-derived vans covers  
the 60 years from 1945 to 2005. It  
describes and illustrates all of the great  
classic Rovers up to and including the  
SD1, and goes on to look at the models  
inherited from British Leyland that attracted  
Rover badges. It finishes with the models  
designed in conjunction with Honda; the  
later British-designed cars – and even the  
final City Rover. There is also  
consideration of some Rover models that  
were designed but, for various reasons, did  
not enter production, and can now only be  
seen as prototypes in museums. A title in  
Veloce's popular Pictorial History series,  
this book describes all of the postwar  
models with illustrations and technical data  
for each.
