SELOC Marine tune-up and repair manuals provide the most comprehensive, authoritative information available for outboard, inboard and

stern-drive engines, as well as personal watercraft. SELOC has been the leading source of how-to information for the marine industry since 1974. Designed and written to serve the needs of the professional mechanic, do-it-yourself boat enthusiast, instructor and student, these manuals are based on actual teardowns done by Seloc's editors/authors in our on-site facility. Every manual features:  
-Easy-to-follow, step-by-step, illustrated procedures  
-Hundreds of exploded drawings, photographs and tables  
-Troubleshooting sections  
-Accurate specifications and wiring diagrams  
Covers all engines and drive units, including transmissions. Includes carbureted and fuel injected engines. Over 1,000 illustrations.

BoatingUNDAUNTED CURIOSITY  
2008 Outstanding Academic Title, Choice Magazine  
From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs)

---

on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

#### Boating

This is an adventure book. But an adventure without either fright or special effects. An adventure which took 10 years, which a couple and their dog(s) enjoyed immensely. This book is the recounting of the cruise of a lifetime. It tells the adventures, life lessons and beauty of the first half of a voyage of 26,000 miles by water, all within the territorial waters of America - the United States and Canada. The journey was predominately within inland waterways, but covered most of all four North American "coasts" as well. The book is entertaining and instructional. Entertaining by providing fascinating, interesting scenic and historical highlights, and "boater tales" gleaned from 10 years of literally almost circumnavigating North America by traversing the vast majority of its navigable waterways and coasts. Instructional to those interested in travel and boating. And informational, relating how to buy and equip a boat, and to plan and execute cruises, both major and minor. Tidbits of information are inserted where intersecting with the entertaining, providing responses to "situations" encountered, enlightening, significant, and humorous. The "tales" range from amusing to hilarious, but they too provide information and instruction useful to those interested in boating and sightseeing cruising by boat. One goal of this book is to illustrate how relaxing, enjoyable, educational and magnificently scenic and satisfying boat travel is within North America. This book relates a literal voyage thru history - the history of two nations and their first and formative transportation system - coasts, rivers and lakes, and some really old canals. This saga encompasses four boats, thousands of gallons of fuel, hundreds of stops, and the water covered

The "Zeke Puts Mr. Zebra to Sleep" Workbook  
is more than just a story that teaches the letter  
Z. You'll find dozens of activity pages featuring  
Zeke, making use of letter and word tracing as  
well as picture matching, missing letter  
challenges, coloring pages, and more. These  
exercises help your child develop spelling,  
vocabulary, and penmanship skills. Combined  
with the story, this workbook encourages your  
child to build a connection with Zeke as well as  
learning itself. Your little one will engage more  
deeply with the story, retaining more  
information and looking forward to the next  
adventure!
