I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing

short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and

while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

I have physical scars from past surgeries, however, I have emotional scars as well. They were buried deep inside (hidden). It wasn't until my mother died was I able to "catch my breath" and to make sense of or process the emotional pain I had endured due to her prescription drug addiction, resulting in my own addictions.

You know him. He's the funny, sweet guy with the great eyes who asks you a million questions and seems mesmerized by every reply.

He takes you on the greatest, longest date of your life. He swears he loves cats and cuddling. And his apartment is so clean. He just might be the One. Then he doesn't call, doesn't write. He sees you coming down the street and he hides behind a tree. He's a cad. And this is his story. After all the girl's guides to sex in the city, here - at last - is the view from the other side of the bed. In *Cad: Confessions of a Toxic Bachelor*, Rick Marin offers himself up for an in-depth look at man's superficial nature. In this rollicking, frequently insensitive and ultimately poignant memoir, Marin proves a master of the light touch even in his darkest hours. Part Hugh Hefner, part Hugh Grant, his tale is a rake's progress (in spite of himself) from incorrigible cad to

reconstructed romantic. It is one man's story but many men will read it as their own. And for any woman who has ever wondered What was he thinking? This is what he was thinking. " An elegant page-turner of nineteenth-century detective fiction. " – The Washington Post Book World One rainy morning in 1871 in lower Manhattan, Martin Pemberton a freelance writer, sees in a passing stagecoach several elderly men, one of whom he recognizes as his supposedly dead and buried father. While trying to unravel the mystery, Pemberton disappears, sending McIlvaine, his employer, the editor of an evening paper, in pursuit of the truth behind his freelancer ' s fate. Layer by layer, McIlvaine reveals a modern metropolis surging with primordial urges and sins, where the Tweed Ring operates the city for its own profit and a conspicuously self-satisfied nouveau-riche ignores the poverty and squalor that surrounds them. In E. L.

Doctorow ' s skilled hands, The Waterworks becomes, in the words of The New York Times, " a dark moral tale . . . an eloquently troubling evocation of our past. " " Startling and spellbinding . . . The waters that lave the narrative all run to the great confluence, where the deepest issues of life and death are borne along on the swift, sure vessel of [Doctorow ' s] poetic imagination. " – The New York Times Book Review " Hypnotic . . . a dazzling romp, an extraordinary read, given strength and grace by the telling, by the poetic voice and controlled cynical lyricism of its streetwise and world-weary narrator. " – The Philadelphia Inquirer " A gem of a novel, intimate as chamber music . . . a thriller guaranteed to leave readers with residual chills and shudders. " – Boston Sunday Herald " Enthralling . . . a story of debauchery and redemption that is spellbinding from first page to last. " – Chicago Sun-Times " An immense, extraordinary achievement. " – San Francisco Chronicle

Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie

audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.

The lot of the motorist has changed greatly over the last hundred years. In the early twentieth century, only the most wealthy could afford a motor car and there were very few rules and regulations. Now most British people own a car and are protected by air bags and crumple zones, but also hemmed in by parking regulations, traffic jams and speed restrictions. In this richly illustrated history of the

past hundred years of motoring, expert Jon Pressnell explores the main developments, such as the introduction and refinement of the driving test; the improvement of roads and the impact of the motorway; and how affordable cars such as the Mini have helped democratise driving. The evolution of the car itself is also explored, from the coachbuilt custom-made cars of the 1910s, through to the more attainable mass-produced models of the inter-war years, and finally to today's complex and sometimes hybrid-powered vehicles.

The inspiration behind the Emmy Award – winning HBO film *Gia* with Angelina Jolie, this “vivid...exhaustive” (The New York Times Book Review) account of the iconic and tragic life, career, and legacy of supermodel *Gia Carangi* features a new afterword by the author. At seventeen, *Gia Carangi* was

working the counter at her father ' s Philadelphia luncheonette. Within a year, she was one of the world ' s top models, gracing the covers of Cosmopolitan and Vogue, partying at Studio 54, and redefining the fashion industry ' s standard of beauty. But behind the glitz and fame, Gia was a young woman in pain, desperate for her mother ' s approval and facing a drug addiction that quickly spun out of control. With dizzying speed, she went from \$10,000-a-day fashion shoots to using drugs on the streets of New York and Atlantic City before finally being blackballed from modeling. At twenty-six, Gia once again made history as one of the first famous women to die of AIDS. This " chilling tale " (The Boston Globe), based on hundreds of interviews with friends, family, lovers, and fashionistas (the term author Stephen Fried coined for her industry colleagues), is comprehensively explored in this unputdownable biography that will introduce Gia to a new generation. It is also a powerful

exploration of our society ' s views of beauty and sexuality, fame and objectification, mothers and daughters, love and death.
