It has been shown that such attempts have the side effect of inhibiting a number of valuable innovations. Some employees proceed informally and smuggle their innovations past formal barriers. Stephan Eicher analyses the interaction between bootleggers and their management.

Using both qualitative and quantitative methods, he answers three primary research questions. What is the current state of research on bootlegging in R&D? How do bootleggers overcome illegitimacy upon disclosing their covert projects to decision-makers? How do different management styles and approaches affect the incidence of bootlegging? The results of this research paint a vivid picture of the relationship between covert innovation projects and the official management world of companies.

The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

[Federal Register](#) China is the world's largest power region, achieving economic growth rates that exceed those of most industrialized countries. In this book practitioners of international companies are offered valuable insights and lessons from established and successful managers, academics and consultants. The book is divided into three parts: "Opportunities and Challenges in China", "Strategies for Market Entry and Business Success" and "Practical Insights from China". It covers a variety of topics such as business strategies, branding, pricing, market research, legal constraints and successful business relations.

[Car and Driver](#) The 2008 crisis set off a systemic panic which almost engulfed the world's financial system. Through a lens of sustainability this book examines how organisations can explore a new business culture today. Drawing from real-life examples and new ideas Bowles and Cooper discuss how organisations can move from 'me' to 'we'.
