Thoughts on the Business of Life Random House

An unprecedented visual exploration of the intertwined histories of art and science, of the old world and the new From the voyages of Christopher Columbus to those of Alexander von Humboldt and Charles Darwin, the depiction of the natural world played a central role in shaping how people on both sides of the Atlantic understood and imaged the region we now know as Latin America. Nature provided incentives for exploration, commodities for trade, specimens for scientific investigation, and manifestations of divine forces. It also yielded a rich trove of representations, created both by natives to the region and visitors, which are the subject of this lushly illustrated book. Author Daniela Bleichmar shows that these images were not only works of art but also instruments for the production of knowledge, with scientific, social, and political repercussions. Early depictions of Latin American nature introduced European audiences to native medicines and religious practices. By the 17th century, revelatory accounts of tobacco, chocolate, and cochineal

reshaped science, trade, and empire around the globe. In the 18th and 19th centuries, collections and scientific expeditions produced both patriotic and imperial visions of Latin America. Through an interdisciplinary examination of more than 150 maps, illustrated manuscripts, still lifes, and landscape paintings spanning four hundred years, *Visual Voyages* establishes Latin America as a critical site for scientific and artistic exploration, affirming that region's transformation and the transformation of Europe as vitally connected histories.

I Will Survive Da Capo Press

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling

that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.
