Your parents and grandparents bankrupted you, and you don't even know it yet. I wrote this book for you, so you will know how and why it happened.

An award-winning historian argues that America's obsession with security imperils our democracy in this "compelling" portrait of cultural anxiety (Mary L. Dudziak, author of *War Time*). For the last sixty years, fear has seeped into every area of American life: Americans own more guns than citizens of any other country, sequester themselves in gated communities, and retreat from public spaces. And yet, crime rates have plummeted, making life in America safer than ever. Why, then, are Americans so afraid-and where does this fear lead to? In this remarkable work of social history, Elaine Tyler May demonstrates how our obsession with security has made citizens fear each other and distrust the government, making America less safe and less democratic. *Fortress America* charts the rise of a muscular national culture, undercutting the common good. Instead of a thriving democracy of engaged citizens, we have become a paranoid, bunkered, militarized, and divided vigilante nation.

Supersizing has become an American way of life. We have XXL cars, homes, and waists. We built the world's tallest monument. We get the largest breast implants.

We're home to the world's largest retailer, sports stadiums, and office building. But with a deep recession and our nation's leaders urging us to reassess the impact of our daily lives, it has become impossible to ignore the effects—on our environment, finances, communities, and psyches—of going ever-bigger. By turns funny and incisive, *Living Large* is a nation-spanning journey into the world of "extreme big," from North Way Christian Community Church in Wexford, Pennsylvania (one of the 1,300 American megachurches), to Bloomington, Minnesota's, Mall of America (4.2 million square feet in size); from the Tiffany flagship store in Manhattan (where in the past two decades the average engagement ring diamond has nearly doubled in size), to Whittier, California (home of America's largest landfill). Wexler's firsthand reports on going for a breast enlargement consultation, trying to lift the world's largest ball of twine, getting lost in the country's largest hotel, talking shop with members of the Hummer Club of America are complemented by interviews with researchers, economists, business owners, critics, and consumers. *Living Large* offers a fascinating, thought-provoking look at a nation that's been supersizing for centuries but is only now coming to terms with its appetite for more.
