The photos in this edition are black and white. When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embrace what has become known as the sport compact-- smaller, lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to present. An extremely popular method of improving

vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of the most efficient and affordable methods of improving your vehicle's performance. This book covers in detail all the most popular performance swaps for Honda Civic, Accord, and Prelude as well as the Acura Integra. It includes vital information on electrics, fit and drive train compatibility, design considerations, step-by-step instruction, and costs. This book is must-have for the Honda enthusiast.

Branding guru Aaker shows how to

eliminate the competition and become the lead brand in your market This ground-breaking book defines the concept of brand relevance using dozens of case studies-Prius, Whole Foods, Westin, iPad and more-and explains how brand relevance drives market dynamics, which generates opportunities for your brand and threats for the competition. Aaker reveals how these companies have made other brands in their categories irrelevant. Key points: When managing a new category of product, treat it as if it were a brand; By failing to produce what customers want or losing momentum and visibility, your brand becomes irrelevant; and create barriers to competitors by supporting innovation at every level of the organization. Using dozens of case studies, shows how to create or dominate new categories or subcategories, making competitors irrelevant Shows how to manage the new category or subcategory as if it were a brand and how to create barriers to competitors Describes the threat of becoming irrelevant by failing to make what customer are buying or losing energy David Aaker, the author of four brand books, has been called the father of branding This book offers insight for creating and/or owning a new business arena. Instead of being the best, the goal is to be the only brand around-making competitors irrelevant.

Baseball during the Great Depression of the 1930s galvanized communities and provided a struggling country with heroes. Jewish player Hank Greenberg gave the people of Detroit—and America—a reason to be proud. But America was facing more than economic hardship. Hitler’s agenda heightened the persecution of Jews abroad while anti-Semitism intensified political and social tensions in the U.S. The six-foot-four-inch Greenberg, the nation’s most prominent Jew, became not only an iconic ball player, but also an important and sometimes controversial symbol of Jewish identity and the American immigrant experience. Throughout his twelve-year baseball career and four years of military service, he heard cheers wherever he went along with anti-Semitic taunts. The abuse drove him to legendary feats that put him in

the company of the greatest sluggers of the day, including Babe Ruth, Jimmie Foxx, and Lou Gehrig. Hank’s iconic status made his personal dilemmas with religion versus team and ambition versus duty national debates. Hank Greenberg is an intimate account of his life—a story of integrity and triumph over adversity and a portrait of one of the greatest baseball players and most important Jews of the twentieth century.
