McCracken (Chief Culture Officer: How To Create a Living, Breathing Corporation) defines a "culturematic" as "a little machine for making culture" and a "what if" tool. They are small, cheap, open-ended, broadly focused experiments designed to uncover "ideas we can't possibly guess we need" and to generate a

range of options. These experiments allow companies, marketers, innovators, and individuals to adapt to constant change and examine options with little risk or expense. Many will fail, but some will scale up. McCracken describes several successful culturemetics, discusses the theory behind them, and includes instructions on how to tailor these experiments to specific industries, as well as how to use them personally for improvement or self-discovery and what they can mean to corporations. He makes clear the differences between culturemetics and stunts or pranks and maintains a website (culturematic.com) in support of ongoing conversation on the subject. Verdict Engagingly written and accessible to both business and lay people, the book will have broad appeal to entrepreneurs, marketers, inventors, artists, and people looking for a creativity boost in their professional or personal lives.-Rachel Owens, Daytona State Coll. Ward's Automotive Yearbook Giorgio Nada Editore Srl  
Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot

distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.

Italy Italy Veloce Publishing  
From the tremendously rich variety of Print's Regional Design Annual winners, Print's editors have selected 200 superb applications of illustration and photography in a wide range of print communications for the latest in the Print's Best

---

series. Because of the Regional Annual's dense format, these winning entries had to be shown small. This book provides the opportunity not only to show the pieces at a generous size, thereby enhancing their impact, but also to feature many of them along with related materials. Here we have brilliantly effective ads, editorial spreads, posters, book and magazine covers, direct-mail, packaging, and corporate publications, all of which use illustration or photography, or a combination of the two, as a central element in the design. Publishing companies account for about a third of the work shown here - including newspaper pages, magazine covers and spreads, and book covers. Print ads represent many different kinds of businesses - among them beverage, food, delivery service, window manufacturers, and sports equipment companies. Posters promote arts festivals, art schools, seminars, and movies, and some do double duty as self-promotion pieces for their creators. Self-promotion for photographers and illustrators runs the gamut from posters and direct-mail pieces to printed ads. Corporate publications for well-known companies like IBM, Kodak, Adobe, and Strathmore include capability brochures, product promotions, and, of course, annual reports. The work shown covers the gamut of current illustrative and photographic techniques, making the book an invaluable resource for anyone in

the design field.

Bloomsbury Publishing

This textbook is appropriate for senior undergraduate and first year graduate students in mechanical and automotive engineering. The contents in this book are presented at a theoretical-practical level. It explains vehicle dynamics concepts in detail, concentrating on their practical use. Related theorems and formal proofs are provided, as are real-life applications. Students, researchers and practicing engineers alike will appreciate the user-friendly presentation of a wealth of topics, most notably steering, handling, ride, and related components. This book also:  
Illustrates all key concepts with examples  
Includes exercises for each chapter  
Covers front, rear, and four wheel steering systems, as well as the advantages and disadvantages of different steering schemes  
Includes an emphasis on design throughout the text, which provides a practical, hands-on approach  
Popular Mechanics Chilton Book Company

The number of athletes who have died competing in the sport of motor racing, including amateurs and professionals around the world, stretches into the thousands. Despite the danger, drivers continue to compete day in and day out for the thrill and joy of the race. In *Taken by Speed: Fallen Heroes of Motor Sport and Their Legacies*, Connie Ann Kirk pays tribute to professional racing drivers who died while competing in the sport they loved. Covering tragedies from 1955 to the present, Kirk carefully reflects on the legacies of the racers and the impact of the tragic events, including on safety regulations, innovations, and on society as a whole. Drivers and incidents covered in this book include the 24 Heures du Mans race of 1955

---

where over 80 people died; the 1964 crash at the Indianapolis 500 that stopped the race for the first time in history; and the tragic losses of racers Ayrton Senna, Dale Earnhardt, Alberto Ascari, Jim Clark, Bruce McLaren, Gilles Villeneuve, Francois Cevert, Dan Wheldon, Justin Wilson, and Jules Bianchi. Taken by Speed features exclusive interviews with legends of motor sport—Mario Andretti, Derek Bell, Sir Stirling Moss, Bobby Rahal, Brian Redman, and Sir Jackie Stewart—who raced in the sport's most dangerous era. It also includes timelines of safety improvements in the sport and key moments in motor sport history. Using motor sports as its lens, this book explores moving stories of what it means to pursue a life's passion with unwavering drive, commitment, and courage.

Whether you're a vintage car spotter or an armchair petrolhead, strap yourself in for an unforgettable ride through motoring history. This sumptuously designed visual e-guide includes everything you could ever want to know about cars through the ages, from the earliest "horseless carriage" to the modern supercar and Formula 1. Inside the pages of this visually stunning car encyclopedia, you'll discover an iconic celebration of automotive design and motoring history. - Trace the history of the car decade-by-decade in stunning visual detail - In-depth profiles highlight the most important cars of each period along with their specifications and special features - Includes beautifully photographed "virtual tours" that showcase particularly celebrated cars such as the Ferrari F40 and the Rolls Royce Silver Ghost - Tells the story of the people and companies that created sports cars like Porsche and Lamborghini Take a trip through decades of automotive history See the fastest, biggest, most luxurious, most innovative, and downright sexiest motorized vehicles come to life in the most spectacular way! Packed with stunning photography and featuring more than 2000 cars, Car shows you how the finest cars from every corner of the globe have evolved over the last 130 years. Lavishly illustrated feature spreads reveal the stories behind the car world's most famous marques and models, the geniuses who designed

---

them, and the companies and factories who built them. It's the ultimate gift for men or anyone interested in cars, motoring, and motor racing. This new edition has been updated to include hybrid and electric cars, as well as the cars of today and tomorrow. Want to learn more about machines? There's more to discover in this epic series from DK Books! Take an action-packed flight through the history of air travel in Aircraft. Stay on the right track and step off at the most important and incredible rail routes from all over the world in Train.

### Dollars & Sense

Following in the tracks of the author's well-known Alfa DOHC tuning manual, Jim Kartalamakis describes all kinds of useful information and techniques to increase power, performance and reliability of V6 Alfas and their engines. This book is the result of much research and firsthand experience gained through many projects concerning Alfa V6 rear-wheel drive models, from the GTV6 series to the last of the 75 3.0 models. A wealth of completely new information can be found here regarding cylinder head mods, big brake mods, LSD adjustment procedure, suspension modifications for road and track, electrical system improvements, flowbench diagrams, dyno plots, and much more!

### Taken by Speed

Saab 99 and 900 is a detailed account of the cars that came from Saab, the aeroplane maker, whose first car - the 92 model - set the standard for advanced design epitomized by the 99 and 900 cars. The author delves deep into the cars' design and history, and into the core Saab values that they carried into production. Topics include: detailed design history of

the 99 and 900; year-by-year developments; technically detailed engineering overviews; detailed specifications; advice on owning and buying and, finally, coverage of rallying and special models.
