Today's rapidly changing marketplace can seem like a jungle for many professionals. Engineering & Management Press offers the books needed to navigate through the wilderness of business techniques and acronyms. EMP's titles provide practical information and proven business methods for most corporate and industrial environments. Our titles cover crucial, timely topics of importance to businesses and managers today -- management, productivity improvement, quality, and related issues. Born through efforts to

catch up with the auto industries of Western nations after World War II, the Toyota, or Just-In-Time (JIT), production system was established primarily to increase productivity and reduce costs. Today, JIT is the most efficient production system in the world. Since the first edition was published in 1983, the Toyota production system has continued to evolve. Toyota has integrated JIT with computer integrated manufacturing technology and a strategic information system, further adjusting their system so that it remains the most effective system in use today. The reasons for integrating technology are discussed, as well as the problems encountered and their solutions.

The International Handbook on Innovation Stoddart Numerous books have been written about Toyota's approach to workplace improvement; however, most describe Toyota's practices as case studies or stories. Designed to aid in the implementation of Lean manufacturing, The Modern Theory of the Toyota Production System: A Systems Inquiry of the World ' s Most Emulated and Profitable Management System explains that your organization already has what it takes to succeed with TPS and what ' s probably missing is balance. Bridging the gap between implementation and

theory, this text is the first of its kind to use systems theory to study how the pieces of the Toyota Production System (TPS) work together to achieve this much needed balance. Lean practitioners will learn how to use system theory to improve overall decision making when applying Lean or Toyota-like management systems. Explaining that the glue that holds the pieces of TPS together is just as important as the pieces themselves, the book provides you with invaluable guidance in the implementation of Lean manufacturing from a management perspective. It outlines a blueprint to help you develop a clear understanding of how the pieces of TPS need to come together so you can achieve something greater than what ' s possible with the individual pieces.

When Don Devendorf and John Knepp got together to form Electramotive Engineering of El Segundo, California, little did they realise that they were setting in motion a train of events which would sooner, rather than later, bring to them and the mighty Nissan GTP cars that they promoted, developed and raced, no less than four IMSA Camel GT Championships. Here, for the first time, is the story of Nissan in racing from 1984 to 1993, the GTP era. The full story of Electramotive and NPTI is told, with interviews with Don Devendorf, John Knepp, Geoff Brabham, Trevor Harris, Kas Kastner, Ashley Page, and many other members of the crew that won the IMSA Camel GT Championship from 1988 to 1991. The story of the European Group C Nissans, using chassis from March and Lola, from 1985 to 1992 is also told, along with interviews from many of the drivers and technicians involved, such as Mark Blundell, Julian Bailey, Dave Price and

Bob Bell.

The Escort RS Cosworth, which started rallying in 1993, was one of the most ingenious designs of all time, and eventually became Ford's most successful since the legendary Escorts of the 1970s. Because it was smaller, lighter, and more nimble than any of the Sierras, the combination of Cosworth power, four-wheel-drive transmission, and an effective aerodynamic package made it a Rally Giant in all conditions. With five World victories in its first season, and success all around the world in later years, it was seen in every continent, in all conditions. To meet a change in regulations, the Escort World Rally Car took over in 1997, and also enjoyed years of success.
