"One of the most remarkable books of contemporary Mexican literature, *The Obstacles* is the story of young writers coming of age in a world dominated entirely by their own fictions. It tells, in alternating chapters, the stories of two teenagers, Ricardo and Elias, who are characters in each others' novels. Ricardo lives in Mexico City with his mother, who is mourning the recent death of her husband. Elias, an orphan, lives in Las Remoras, a town on the Baja Peninsula that has been invented and meticulously imagined by Ricardo. Blurring our notions of reality and fiction, Eloy Urroz takes the reader into a world where characters invent characters and challenge their creators. And the book's conclusion--in which a surprising connection between Ricardo and Elias is revealed--shows that not even fiction can be controlled in a world of such incredible unpredictability."--Publisher's

"I have to be honest with you. Islam is on very thin ice with me.... Through our screaming self-pity and our conspicuous silences, we Muslims are conspiring against ourselves. We're in crisis and we're dragging the rest of the world with us. If ever there was a moment for an Islamic reformation, it's now. For the love of God, what are we doing about it?" In this open letter, Irshad Manji unearths the troubling cornerstones of mainstream Islam today: tribal insularity, deep-seated anti-Semitism, and an uncritical acceptance of the Koran as the final, and therefore superior, manifesto of God's will. But her message is ultimately positive. She offers a practical vision of how Islam can undergo a reformation that empowers women, promotes respect for religious minorities, and fosters a competition of ideas. Her vision revives "ijtihad," Islam's lost tradition of independent thinking. In that spirit, Irshad has a refreshing challenge for both Muslims and non-Muslims: Don't silence yourselves. Ask questions---out loud. *The Trouble with Islam Today* is a clarion call for a fatwa-free future.

Baseball during the Great Depression of the 1930s galvanized communities and provided a struggling country with heroes. Jewish player Hank Greenberg gave the people of Detroit—and America—a reason to be proud. But America was facing more than economic hardship. Hitler ' s agenda heightened the persecution of Jews abroad while anti-Semitism intensified political and social tensions in the U.S. The six-foot-four-inch Greenberg, the nation ' s most prominent Jew, became not only an iconic ball player, but also an important and sometimes controversial symbol of Jewish identity and the American immigrant experience. Throughout his twelve-year baseball

career and four years of military service, he heard cheers wherever he went along with anti-Semitic taunts. The abuse drove him to legendary feats that put him in the company of the greatest sluggers of the day, including Babe Ruth, Jimmie Foxx, and Lou Gehrig. Hank's iconic status made his personal dilemmas with religion versus team and ambition versus duty national debates. Hank Greenberg is an intimate account of his life—a story of integrity and triumph over adversity and a portrait of one of the greatest baseball players and most important Jews of the twentieth century. Starting with Japan's first gasoline-powered car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan; the arrival of Japanese cars in California in the late 1950s; consumer and media reactions to Japanese manufacturers; what obstacles they faced; initial sales; and how the cars gained popularity through shrewd marketing. Toyota, Honda, Datsun (Nissan), Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their origins through the present. An examination follows of the forced cooperation between American and Japanese manufacturers, the present state of the industry in America, and the possible future of this union, most importantly in the race for a more environmentally-sound vehicle.

The Trouble with Islam Today

Barrett Swanson embarks on a personal quest across the United States to uncover what it means to be an American amid the swirl of our post-truth climate in this collection of critically acclaimed essays and reportage. A trip with his brother to a New York psychic community becomes a rollicking tour through the world of American spiritualism. At a wilderness retreat in Ohio, men seek a cure for toxic masculinity, while in the hinterlands of Wisconsin, antiwar veterans turn to farming when they cannot sustain the heroic myth of service. And when his best friend's body washes up on the shores of the Mississippi River, he falls into the gullet of true crime discussion boards, exploring the stamina of conspiracy theories along the cankered byways of the Midwest. In this exhilarating debut, Barrett Swanson introduces us to a new reality. At a moment when grand unifying narratives have splintered into competing storylines, these critically acclaimed essays document the many routes by which people are struggling to find stability in the aftermath of our
