Book Ballantine Books

This book has proved its worth over the years as a text for courses in Production Management at the Faculty of Automotive Engineering in Turin, Italy, but deserves a wider audience as it presents a compendium of basics on Industrial Management, since it covers all major topics required. It treats all subjects from product development and "make or buy"-decision strategies to the manufacturing systems setting and management through analysis of the main resources needed in production and finally

exploring the supply chain management and the procurement techniques. The very last chapter recapitulates the previous ones by analysing key management indicators to pursue the value creation that is the real purpose of every industrial enterprise. As an appendix, a specific chapter is dedicated to the basics of production management where all main relevant definitions, techniques and criteria are treated, including some numerical examples, in order to provide an adequate foundation for understanding the other chapters. This book will be of use not only to Automotive Engineering students but a wide range of readers who wish to gain insight in the world of automotive engineering and the automotive industry in general.

Alfa Romeo Giulia Spider Motorbooks International

Combine one of Pininfarina's most enduring shapes with a classic twin-cam Alfa Romeo engine,

and you have the Spider. In spite of several updates to keep it abreast of the times, the Spider remains immediately recognizable as the lineal descent of the car which Dustin Hoffman drove in 'The Graduate'. It is, without any doubt, a classic. When the Spider was launched in 1966, it was met with mixed feelings, but nobody complained about the performance. The Spider stayed in production until 1993 and was still sold in America during 1964.

After Mario Puzo wrote his internationally acclaimed The Godfather, he has often been imitated but never equaled.

---

Puzo's classic novel, *The Sicilian*, stands as a cornerstone of his work—a lushly romantic, unforgettable tale of bloodshed, justice, and treachery. . . . The year is 1950. Michael Corleone is nearing the end of his exile in Sicily. The Godfather has commanded Michael to bring a young Sicilian bandit named Salvatore Guiliano back with him to America. But Guiliano is a man entwined in a bloody web of violence and vendettas. In Sicily, Guiliano is a modern day Robin Hood who has defied corruption—and defied the Cosa Nostra. Now, in the land of mist-shrouded mountains and ancient ruins, Michael Corleone's fate is entwined with the dangerous legend of Salvatore Guiliano: warrior, lover, and the ultimate Siciliano. Praise for *The Sicilian* “ Puzo is a master storyteller. ” —USA Today “ The Balzac of the mafia. ” —Time “ An accomplished and imaginative writer. ” —Los Angeles Times

Autocar & Motor Random House Professional motorsports came to Las Vegas in the mid-1950s at a bankrupt horse track swarmed by gamblers--and soon became enmeshed with the government and organized crime. By 1965, the Vegas racing game moved from makeshift facilities to Stardust International Raceway, constructed with real grandstands, sanitary facilities and air-conditioned timing towers. Stardust would host the biggest racing names of the era--Mario Andretti, Parnelli Jones, John Surtees, Mark Donohue, Bobby Unser, Dan Gurney and Don Garlits among them. Established by a notorious racketeer, the track stood at the confluence of shadowy elements--wiretaps, casino skimming, Howard Hughes, and the beginnings of Watergate. The author traces the Stardust's colorful history through the auto racing monthlies, national newspapers, extensive interviews and the files of the FBI.

### Formula One Racing For Dummies

“ A good read for anyone who wants to understand what actually determines whether a developing economy will succeed. ”  
—Bill Gates, “ Top 5 Books of the Year ”  
An Economist Best Book of the Year from a reporter who has spent two decades in the region, and who the Financial Times said “ should be named chief myth-buster for Asian business. ” In *How Asia Works*, Joe Studwell distills his extensive research into the economies of nine countries—Japan, South Korea, Taiwan, Indonesia, Malaysia, Thailand, the Philippines, Vietnam, and China—into an accessible, readable narrative that debunks Western

misconceptions, shows what really happened in Asia and why, and for once makes clear why some countries have boomed while others have languished. Studwell ’ s in-depth analysis focuses on three main areas: land policy, manufacturing, and finance. Land reform has been essential to the success of Asian economies, giving a kick-start to development by utilizing a large workforce and providing capital for growth. With manufacturing, industrial development alone is not sufficient, Studwell argues. Instead, countries need “ export discipline, ” a government that forces companies to compete on the global scale. And in finance, effective regulation is essential for fostering, and sustaining growth. To explore all of these subjects, Studwell journeys far and wide, drawing on fascinating examples from a Philippine sugar baron ’ s stifling of reform to the explosive growth at a Korean steel mill. “ Provocative . . . *How Asia Works* is a striking and enlightening book . . . A lively mix of scholarship, reporting and polemic. ”  
—The Economist
