the 1978 Nobel Memorial Prize in economics. As this collection demonstrates, his impact on economics has been felt in areas as diverse as the theory of the firm and economic organization, consumer behaviour, law and economics, and environmental economics. Central to his work is the notion of bounded rationality - the mismatch between human decision-making capacities and the scale of the decision

problems that people face, which results in satisficing rather than optimizing behaviour - and his belief that economic research should start from the study of actual behaviour rather than being based on convenient but unrealistic assumptions. Peter Earl's choice of articles shows both the kind of economics that emerges when Simon's philosophy is followed comprehensively, and what happens when neo-classical economists

partially adopt his ideas. *Weekly Letting Report* John Wiley & Sons The Total Car Care series continues to lead all other do-it-yourself automotive repair manuals. This book brings
 together seminal
 articles by leading
 scholars of
 technological and
 organizational
 systems, exploring
 the impact of
 'modularity'.

Modularity refers to
 an ability to take
 apart and put together

different products and
 networks, or to 'mix
 and match'
 components in order
 to meet different user
 specifications. This is
 of key importance
 today where new
 systems such as the
 World Wide Web and
 many areas of the
 computer industry
 depend on it. The
 volume pulls together
 and defines an
 exciting new area of
 inquiry: into how our

Used Car and Truck Book Edward Elgar Pub
Read the full story of Great Britain's best-loved sports car manufacturer with Aston Martin DB, an exquisitely produced, photo-loaded, history by Aston Martin expert, Andrew Noakes. The name David Brown is synonymous with the glory days of Aston Martin, when a tiny British sports car company was rescued from near-extinction and turned into a marque that could compete with Ferrari--and win. Stylish design, lavish illustration from the Aston Martin Heritage Trust and meticulously researched text come together in this large-

format, 224-page book seat equipped DB5 to create a superb celebration of the 70th anniversary of DB Aston Martins in 2017. There's a wealth of detail on the Aston Martin DB road and race cars, both from the David Brown era of 1947-1972 and the modern DB era from 1993 onwards, together high quality images and specification tables for all the key models. *Aston Martin DB 70 Years* is a fitting celebration of one of the world's most enduring sports cars. The fast, beautiful sports cars that Aston Martin built under Brown's ownership won the Le Mans 24-hour race and the World Sports Car Championship, and provided James Bond with his most famous transport: the ejector-

that won acclaim in Goldfinger. Though the DB era ended when Brown sold the company in 1972, its influence continued to be felt. James Bond's most recent car, the specially-made DB10, and Aston Martin has just launched its most complete car ever, the DB11. 'DB' means as much to Aston Martin now as ever. *American Recycler*, August 2009
