I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with

weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

"Benjamin Percy is a force." -- Anthony Doerr, *All the Light We Cannot See* This debut collection of stories, *The Language of Elk*, by the award-winning author of *Red Moon*, assembles its cast from the mountain towns and low life taverns and high desert ranches of Oregon--a state that in isolated pockets remains a still-unfinished place, the frontier. Here nature exists as a source of wonder and a force to be conquered. Here myths haunt the moss-laden woods and Benjamin Percy shines his light on them, revealing bearded ladies and Bigfoot and marijuana colonies and elk hunting ranches and haunted Indian burial sites, the underside of contemporary western America. With a salty mystical voice that partners the landscape and a vision as wild as his characters, Percy explores a world of surprising violence and gentleness, hilarity and heartbreak, loveliness and ugliness, and in doing so emerges as a beautifully raw voice of the West.

International terrorism and the development of weapons of mass destruction have given war an unlimited capability that can cause total destruction of all living things as well as the world in which we reside. Although human beings realize that this catastrophic outcome is possible, they continue to engage in wars. What forces drive them to do so? *Sounds: A Pathway to World Peace* attempts to answer that question by examining the survival and socializing forces that govern human interactions, identifying the behaviors these forces initiate, and reviewing the circumstances that strengthen the influence of one force over the other. This information is used to develop The Behavior Set Theory.

This theory is used to explain why wars exist and to provide approaches combatants can take to stop the Arab-Israeli conflict, the war in Iraq, international terrorism, and conditions existing in the United States, where many public policies strengthen survival forces rather than socializing ones.

The *Alcoholism and Addiction Cure* contains the powerful three-step program to total recovery that is the basis of the miraculous success of the Passages Addiction Cure Center in Malibu, California. You'll learn the three steps to permanent sobriety; the four causes of dependency; how your thoughts, emotions, and beliefs are key factors in your recovery; and how to create your own personalized treatment program with the help of health professionals where you live--one that gets to the real, underlying causes of dependency. "Freedom from dependency starts with understanding that alcohol, drugs, and addictive behaviors are not the real problems," say Pax and Chris Prentiss, cofounders of Passages. "Alcohol, street drugs, nicotine, prescription medications, food bingeing, gambling, and the like are merely the substances or behaviors you or your loved ones are using to cope with the real problems--anything from deep emotional pain, ill health, or depression to hypoglycemia, a sluggish thyroid, or brain-wave pattern imbalances. Once the underlying problems are discovered and cured, the need for drugs, alcohol, or addictive behavior will disappear--along with the craving." Chris Prentiss should know. His son Pax was addicted to heroin, cocaine, and alcohol for ten years. They sought help everywhere, but Pax relapsed again and again. In desperation, they finally created their own holistic, hand-tailored program that was a complete break from all other programs and that combined several effective therapies. It saved Pax's life. Together, father and son founded Passages to help others find their own freedom. For decades, we've been hearing that alcoholism and addiction are incurable diseases, but *The Alcoholism and Addiction Cure* proves that this is a dangerous myth and that the label of "alcoholic" or "addict" destroys the promise of full recovery. Visionaries and innovators, Pax and Chris Prentiss bring new hope to people everywhere who are dependent on drugs, alcohol, or addictive behaviors. This groundbreaking approach will show you how to end relapse, end addictive behavior, and end your suffering.

Action is the foundational key to all success. Pablo Picasso What does it take to succeed? How can I succeed? These are the questions that have been asked over the years. One method of learning more is to review the Success Manifesto of those who have attained success in their fields. As we know, a manifesto is a public declaration of intentions, motives or views. In this book, the CelebrityExperts(R) herein share their experiences in their various fields. Like most readers, these authors began their missions at ground zero. As they progressed to success, they harnessed or developed many traits that they share. These traits typically include: a vision or chosen goal, perseverance, a knowledge of and passion for the subject, a willingness to take calculated risks, a plan, and the courage to take action. Regardless of the goals the authors have chosen, by using their ideas to mentor you, you can profit from their experiences, both positive and negative - thereby avoiding a loss of time and resources as you move closer to your own goal(s). So, are you ready? If you are, then go into action and start the process. Just think - one day you could write your own Success Manifesto It had long since come to my attention that people of accomplishment rarely sat back and let things happen to them. They went out and happened to things. Leonardo da Vinci
