Explores whether  
sufficient data  
exists to examine  
the temporal and  
spatial  
relationships that  
existed in  
terrorist group  
planning, and if  
so, could patterns  
of preparatory  
conduct be  
identified? About  
one-half of the  
terrorists resided,

---

planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist

incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations. Chilton's Motor/age
