The third and final installment of the JELLY BRYCE Trilogy, *The Man in the Mirror* follows FBI Special Agent Delf "Jelly" Bryce through the tumultuous war years from 1941 until his death in 1974. Many things changed for Jelly during

this time period, as both he and the country he loved matured while dealing with threats both from within and without. This is a story of true courage, amazing physical ability, and personal honor tempered by the inner struggles of a man driven to do the right thing in a world in which that path is not always clear. Inspired by historical events. "Ideally, I suppose every writer of history hopes someone will take their work and improve upon it. I cannot praise

Mike Conti's Jelly Bryce trilogy too highly. He has breathed life into Jelly Bryce in ways my biography could not; ways in which the dry facts of newspaper articles, police reports, personnel files and even interviews of some friends and relatives have fallen short. I only wish Jelly could have read the trilogy. I believe he would have approved."-- Ron Owens

This is why I think my book is #1 Best Magical Herb Book in the world: BIG!

340+ herbs + a really BIG index + Hundreds of magical properties! This is life changing! Think of all the awesome magic you could cast with the herbs around you already have and you never knew their full magical properties!

Wide. I made this book to be used by anyone of any belief. Before I came there were many books written from a Wicca perspective, some from a Voodoo

perspective, and not that many from other beliefs.

This book encompasses all beliefs offering a reference point for everyone practicing magic. Tailored solutions.

Mix and match magical properties targeting individual specific needs.

You can really narrow down and get as nitty gritty as you want, offering you a better individualised solution to fit your needs just right. Your "size", your magical solution, EVERY SINGLE TIME! So you can cast BETTER SPELLS! Delightful user experience. Many times, I've

---

seen books that are difficult to use by the reader (even when they have an index), I wanted to create something you can use with ease and truly rely on as a reference book for many years to come. I pride myself in making this amazing book easy to use. You can work both ways: find out what a herb does, and find out what herbs are best suited for your situation.

Interchangeable. Easy substitutions. We've seen books saying one herb can be used for a specific purpose and being rigid in

their terminology. We've also seen the substitutions lists. All of them squash creativity, putting everything into a stereotypical box. **THIS BOOK IS THE END OF THIS INSANITY!** Same language and terminology are used throughout the book making it easy for you to find what you need. This is a fluid book; you can substitute any herb with any other herb from the same category (ie: attraction). No planet, deity, or number association because the same herbs can play different roles within a spell.

Limiting a herb also limits your understanding and ability to use that herb. I offer you the freedom to understand how herbs work beyond of what you already know. This is priceless because it builds confidence and wisdom. Cut the fluff. Only instructions, and a bonus from our upcoming *Friendships With Spirits* book at the end. Familiar. I use the same language you use, the same witchy terms. Smooth. Easy to read, memorise, and see similar patterns between herbs. This makes you realize how

---

well interconnected everything really is. No pictures. I wanted something quick and easy you can hold in your hand and use without fluff. Imagine this scenario: you're casting a cleansing spell, the candles are almost gone, you just run out of a sage and you need a solution, FAST! You pick up my book, go to the index, look under cleansing, and easily find a substitute you already have. Problem solved! There are thousands of pictures already on Google easy to access with just the click of a button in a

matter of seconds (even faster if you downloaded this book in your smartphone's Kindle app). Now, let me ask you this, do you really care about the pictures? PS: Your purchase just made my day; I hope this book will make yours! Leave me a review after you use it, I always like reading your lovely reviews. They make me really happy ?

**Determining the Acceptability of New Airborne Systems** Haynes Manuals N. America, Incorporated  
Touring on a motorcycle has never been more popular than

it is today, but with more and more people hitting the open road, a growing number are doing so without the proper skills and information they need to survive the ordeal. Far too often the trip of a lifetime turns into an unmitigated disaster, leading to expensive breakdowns, arrests, lost wages, broken limbs, death, and even, on more than one occasion, divorce. Most people who travel aboard motorcycles have learned these lessons the hard way, if they've survived long enough, but now readers of the Motorcycle Touring Bible can learn an easier way; they can learn from author Fred Rau's mistakes rather than

knocks.
