The Escort RS Cosworth, which started rallying in 1993, was one of the most ingenious designs of all time, and eventually became Ford's most successful since the legendary Escorts of the 1970s. Because it was smaller, lighter, and more nimble than any of the Sierras, the combination of Cosworth power, four-wheel-drive transmission, and an effective aerodynamic package made it a Rally Giant in all conditions. With five World victories in its first season, and success all around the world in later years, it was seen in every continent, in all conditions. To meet a change in regulations, the Escort World Rally Car took over in 1997, and also enjoyed years of success.

Used Car & Truck Book

This book chronicles the divergent growth

trends in car production in Belgium and Spain. It delves into how European integration, high wages, and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations.
