Albania provides a

small amount of  
social assistance to  
nearly 20% of its  
population through a  
system which allows  
a degree of  
community  
discretion in  
determining  
distribution. This  
study investigates  
the poverty targeting  
of this program. It  
indicates that  
relative to other  
safety net programs  
in low income  
countries, social  
assistance in  
Albania is fairly  
well targeted to the  
poor.
