**How to change rear cam
seals? - The Acura ... -
Acura RL Forum**

The rear cam end plug seal is
on the end of the rear top
valve cover. In other words,
look where the distributor
attaches to the front top valve
cover and then look to the
mirror image on the rear top

valve cover. There is a semi-
circular plug there. Have to
remove rear top valve cover
and then the cam cradle
(whatever that is). Thanks
anyway.
