Sports Cars Illustrated Griffin

How do the rich get rich? An updated edition of the

“ remarkable ” New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don ’ t live in Beverly Hills or on Park

Avenue. They live next door. America ’ s wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don ’ t realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as “ rich ” are actually a tiny minority of America ’ s truly wealthy citizens—and behave quite differently than the majority. At the time of its first

publication, *The Millionaire Next Door* was a groundbreaking examination of America's rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. “ Their surprising results reveal fundamental qualities of this group that are

diametrically opposed to today's earn-and-consume culture. ” —Library Journal

California Jury Verdicts
Weekly New Line Books

Since the early 2000s, the apparent explosion of interest in Volkswagens with original paint, rust and patina has inspired a generation of car fanatics, who might not be able to afford to restore a car to

show condition, but still want a good looking, cool car that will stand out from the crowd. Once looked upon as being in need of restoration, cars with original paint, rust and patina, especially within the global Volkswagen community, have gradually become far more popular than restored cars. When walking down a line of cars at a car show, it's easy to see why; these cars are rare, unspoiled survivors — cars that tell a story of an interesting and varied past. The look of the Volkswagens being built in this style is so honest, unspoiled and characterful, that it has begun to inspire the media; even Hollywood movie stars and celebrities. Whilst this has undoubtedly resulted in increased car values, and turned a brand of cars that had always been a cheap, honest mode of transportation into something cool with a high price tag, the generation it initially inspired has grown with the hobby, and produced a micro-industry that still manages to embrace the 'Built not bought' ethos. This book, superbly illustrated with stunning colour photographs, takes an inside look at some of the key car builders, dealers, celebrities and hobbyists, as well as the different styles of build, meaning every single car has a style all its own. Foreword by Drew Pritchard of TV's 'Salvage Hunters' fame.
