Tens of thousands of mechanical engineers are engaged in the design, building, upgrading, and optimization of various material handling facilities. The peculiarity of material handling is that there are numerous technical solutions to any problem. The engineer's personal selection of the optimal solution is as critical as the technical component. Michael Rivkin, Ph.D., draws on his decades of experience in design, construction, upgrading, optimization, troubleshooting, and maintenance throughout the world, to highlight topics such as:

- physical principles of various material handling systems;
- considerations in selecting technically efficient and environmentally friendly equipment;
- best practices in upgrading and optimizing existing bulk material handling facilities;
- strategies to select proper equipment in the early phases of a new project.

Filled with graphs, charts, and case studies, the book also includes bulleted summaries to help mechanical engineers without a special background in material handling find optimal solutions to everyday problems.

One of the main attractions of the VW Bus, apart from its iconic looks and rugged reliability, is the way owners take the bus to heart and into their family, and set about personalizing them through both exterior and interior design and styling. Designing and building [or commissioning] an interior that will service your own needs is a daunting yet exciting task, and within these pages you will find many different sorts of interior to admire and inspire. Some have been built on a budget from scratch by the owner, some have been adapted and revamped, others are bespoke one-offs, built to the owner's designs. Whatever your taste in camper design, there will be something to amaze and inspire in the pages of VW Camper Inspirational Interiors.

Every fascinating stage of the evolution of the stunning new Lotus Evora is explored in this fully comprehensive book, LOTUS EVORA - SUBLIME SUPERCAR. From its conception, through development, prototype testing, certification, production and on to the marketing of the car, every part of this captivating story is covered in depth. Produced with the full co-operation of Lotus Cars, who once again gave Coterie Press exclusive access to their photo archives as well as their employees, this book contains the reminiscences of virtually everyone involved in the concept, design and development of the Evora. Author Johnny Tipler was the only journalist invited to see and drive the Evora before it was launched to the press and public. With unprecedented access and surprising candor, he is able to describe in detail all of the development stages, through to the construction of the first production examples, culminating in the car's press debut in Scotland. His close involvement with Lotus, and their obvious enthusiasm for the Evora project, is reflected by the openness of all involved who tell him the full story behind this stunning new car.
