As U.S. and Canadian automakers and

dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada ' s automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler ' s days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz – rich cars, poor quality. There ' s only one

Saturn you should buy. Toyota – enough apologies: "when you mess up, ' fess up."
