An insatiable need for sex and love.

Periods of overeating or starving. A pattern

of unstable and painful relationships. Does this sound painfully familiar? Trauma counselor Kelly McDaniel has seen these traits over and over in clients who feel trapped in cycles of harmful behaviors-and are unable to stop. Many of us find ourselves stuck in unhealthy habits simply because we don't see a better way. With *Mother Hunger*, McDaniel helps women break the cycle of destructive behavior by taking a fresh look at childhood trauma and its lasting

impact. In doing so, she destigmatizes the shame that comes with being under-mothered and misdiagnosed. McDaniel offers a healing path with powerful tools that include therapeutic interventions and lifestyle changes in service to healthy relationships. The constant search for mother love can be a lifelong emotional burden, but healing begins with knowing and naming what we are missing. McDaniel is the first clinician to identify *Mother Hunger*, which demystifies the

search for love and provides the compass that each woman needs to end the struggle with achy, lonely emptiness, and come home to herself.

Concept Cars is an illustrated guide to 70 of the most creative products of car design. From the science fiction inspired concept cars of the 1950s to the remarkably innovative designs

of the present day, here are the cars that push the boundaries of automotive design to the limit. Featured are designs that opened the doors to future innovations, as well as the cars that actually made it to production, such as the new VW Beetle and the Porsche Boxster. Key car designers such as Norman Bel Geddes, the “father of streamlining,” and Peter Schreyer, the man responsible for the Audi TT, are covered as well. 190 color photographs and

illustrations are included in this discovery of the fantastic, the extraordinary, and just plain outlandish creations of the automotive industry.
