The Earth and Its Peoples is a truly global text that employs a fundamental theme--the interaction of human beings and the environment--as a point of comparison for different times, places, and societies. Special emphasis is given to technology and how technological development underlies all human activity. The text has been rewritten to improve coverage of the early Americas, Russia, the Enlightenment, the Renaissance, and the Industrial Revolution.

Cracking the AP World History Exam 2018, Premium Edition Princeton Review

In the thirteenth century, the Mongols created a vast transcontinental empire that functioned as a cultural 'clearing house' for the Old World. Under Mongol auspices various commodities, ideologies and technologies were disseminated across Eurasia. The focus of this path-breaking study is the extensive exchanges between Iran and China. The Mongol rulers of these two ancient civilizations 'shared' the cultural resources of their realms with one another. The result was a lively traffic in specialist personnel and scholarly literature between East and West. These exchanges ranged from cartography to printing, from agriculture to astronomy. The book concludes by asking why the Mongols made such heavy use of

sedentary scholars and specialists in the elaboration of their court culture and why they initiated so many exchanges across Eurasia. This is a work of great erudition which crosses new scholarly boundaries in its analysis of communication and culture in the Mongol empire.

"You Got Into Where?" is the first college admissions guide written by a student who is fresh out of the college admissions process. Learn how I was admitted to schools like the University of Southern California and New York University with full tuition scholarships. The guide features copies of my admissions essay, writing supplement, and activities resume that I used to apply to college the fall of my senior year. Get advice on all the secrets of the admissions process from start to finish. "I can't believe that a 17 year-old has written a college admissions books that is so well-written, clear and accurate. No wonder USC jumped at the chance to have her become their student. My sense of things is that mostly parents read college admissions books; high school students just don't want to take the time. Given what she says and how she says it, I truly believe that teens will rush to read "You Got Into Where?" It is well worth their time." -Marjorie Hansen Shaevitz Author, **adMISSION POSSIBLE**
