Used Car Buying Guide 2004

Kogan Page Publishers

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the

future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz - rich cars, poor quality. There's only one Saturn you should buy. Toyota - enough apologies: "when you mess up, 'fess up."

Ward's Automotive Yearbook ????????????
Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation). Many 2011-12 automobiles have "chin-to-chest" head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway. Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers. GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago. You can save \$2,000 by cutting freight fees and "administrative" charges. Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea. Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki.

why price rarely guarantees reliability (beware of 'luxury lemons'). Hard-nosed ratings, true fuel-consumption figures, and which safety features are unsafe, are all found in this year's guide, as well as: Dealer markups for each model; cutting the freight fee. The best and worst options; whose warranty is the best. Which 2006s are better buys than a 2007. Sample compliant letters that work.
