car based on its Corvette and dubbed it the "Super Sport." The performance car world took one look and never looked back. A combination of styling and performance upgrades, the SS package could turn something as mundane as a six-cylinder Malibu into the fire-breathing Chevelle SS396. This book traces the long line of legendary SS models, from Chevy's Super Sport version of its popular Impala, which marked the dawn of the

muscle car era, to today's Impala SS. Featuring the work of acclaimed photo ace David Newhardt, *Chevy SS: The Super Sport Story* provides a close-up, detailed, full-color look at such classic muscle cars as the Chevelle, the El Camino, the Malibu, and the Monte Carlo as well as today's hot Camaro SS. The book is a fittingly elegant celebration of the cars that redefined "high performance" and defined an era.

Chilton Book Company Repair & Tune-up Guide Motorbooks As the muscle car wars developed in the early 1960s, auto manufacturers scrambled to find catchy marketing campaigns to entice the buying public into their dealerships. General Motors, Ford, and Chrysler, with all their divisions, as well as AMC and Studebaker, inevitably sank billions of dollars into one-upmanship in an effort to vie for the consumer's last dollar. Automotive

writer Diego Rosenberg examines the tactics and components used by manufacturers in waging war against one another in the muscle car era. Manufacturers poured millions into racing programs, operating under the principle of "Win on Sunday, Sell on Monday." Cars were given catchy nicknames, such as The GTO Judge, Plymouth Roadrunner, Cobra, and Dodge Super Bee. Entire manufacturer lines were given catchy marketing campaigns, such as

Dodge's Scat Pack, AMC's Go Package, and Ford's Total Performance. From racing to commercials to print ads, from dealer showrooms to national auto shows, each manufacturer had its own approach in vying for the buyer's attention, and gimmicks and tactics ranged from comical to dead serious. Selling the American Muscle Car: Marketing Detroit Iron in the 60s and 70s takes you back to an era when options were plentiful and performance was cheap. You will relive or be

introduced to some of the cleverest marketing campaigns created during a time when America was changing every day. Old Car Auction Bible Motorbooks International Volume One traces the history of Opel and Vauxhall separately from inception through to the 1970s and thereafter collectively to 2015. Special attention is devoted to examining innovative engineering features and the role Opel has taken of providing global platforms for GM. Each model is examined individually and supplemented by exhaustive supporting specification tables. The fascinating history of Saab and Lotus

begins with their humble beginnings and examines each model in detail and looks at why these unusual marques came under the GM Banner. Included is a penetrating review of Saab through to its unfortunate demise. Volume Two examines unique models and variations of Chevrolet and Buick manufactured in the Southern Hemisphere and Asia but never offered in North America. Daewoo, Wuling and Baojun are other Asian brands covered in detail. This volume concludes with recording the remarkable early success of Holden and its continued independence through to today. Volume Three covers the smaller assembly operations around the

world and the evolution of GM's export operations. A brief history of Isuzu, Subaru and Suzuki looks at the three minority interests GM held in Asia. The GM North American model specifications are the most comprehensive to be found in a single book. Global and regional sales statistics are included. GM executives and management from around the globe are listed with the roles they held. An index ensures that these volumes serve as the ideal reference source on GM.

The 1973 oil crisis forced the American automotive industry into a period of

dramatic change, marked by stiff foreign competition, tougher product regulations and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin, muscle cars and the massive "need-for-speed" engines of the late '60s were out, and fuel efficient compacts were in. By 1980, American manufacturers were churning out some of the most feature laden, yet smallest and most fuel efficient cars they had ever built. This exhaustive reference work details every model from each of the major American manufacturers from

model years 1973 through 1980, including various "captive imports" (e.g. Dodge's Colt, built by Mitsubishi.) Within each model year, it reports on each manufacturer's significant news and details every model offered: its specifications, powertrain offerings, prices, standard features, major options, and production figures, among other facts. The work is heavily illustrated with approximately 1,300 photographs. How to Rebuild Big-Block Chevy Engines FriesenPress Shows how to perform routine maintenance on Chevilles, El Caminos, Malibus,
