3 Column Ledger Accounts | Double Entry Bookkeeping
This journal entry affects 2 accounts (Cash and Accounts Receivable), so you must make entries to both of those ledger accounts. Turn to the Cash page of your ledger. In the left column (which is used for recording debits), write the date of the transaction, and then write the amount. In this example, the amount is \$500.

Three column cash book - Play Accounting
The 3 column ledger account provides information on the balance on the account after each debit or credit entry has been posted, for this reason it is often known as the running balance method. This is in contrast to the period balance method in which account balances are calculated only at the end of the accounting period. The advantage of the three column ledger is that the balance on an account is available to the user at any point in time.

The triple column cash book (also referred to as three column cash

book) is the most exhaustive form of cash book which has three money columns on both receipt (Dr) and payment (Cr) sides to record transactions involving cash, bank and discounts. A triple column cash book is usually maintained by large firms which make and receive payments in cash as well as by bank and which frequently receive and allow cash discounts.
