Explorer's Guide Sarasota, Sanibel Island & Naples: A Great Destination (Sixth Edition) The Countryman Press

"A lively look at how each generation of Americans has reinvented Columbus in its own image and for its own purposes. Was Christopher Columbus a hero or a villain, discoverer or destroyer? ... By focusing on popular representation of the explorer and his story through the years, rather than the actual man or deeds, Bushman chronicles the invention of Columbian tradition. In doing so, she provides a historical and cultural context for the quinquennial debate over Columbus's legacy, demonstrating that the current questioning is only the latest in a long tradition of revising the explorer's reputation."--From publisher.

The history of Fenway Park, in its Voice's words

Business Periodicals Index Krause Publications Incorporated Swatches From The Century's End ...I cannot deny my past to which my self is wed, the woven figure cannot undo its thread. Louis MacNeice, "Valediction" These words express a truth of conservatism that has discomfited conservatives in the years covered by this volume. This collection of columns shows how, in the mid-1990s, conservatives fancied themselves poised to conduct a revolution, a radical reorientation of politics and governance. But in the late 1990s, they have discovered how resistant a complex nation is to being undone and rewoven. In this volume, George F. Will, distinguished political columnist and cultural critic, examines many episodes of the conservative tribulations and the liberal accommodations to the new political landscape. These writings present a map of the landscape, a guide for people perplexed by the gap between contemporary political theories and practices. With his customary linguistic flair and acerbic wit, Mr. Will tackles a wide range of subjects, including political correctness on college campuses; extreme fighting; the 1996 presidential campaign; judicial activism; ESPN; and Corvettes. These writings are history written on deadline, and together they constitute a richly woven tapestry of our era.

Internationally renowned as an exciting guide to unknown peoples and places, Norwegian Carl Lumholtz was a Victorian-era explorer, anthropologist, natural scientist, writer, and photographer who worked in Australia, Mexico, and Borneo. His photographs of the Tarahumara, Huichol, Cora, Tepehuan, Southern Pima, and Tohono O'odham tribes of Mexico and southwest Arizona were among the very first taken of these cultures and still provide the best photographic record of them at the turn of the twentieth century. Lumholtz published his photographs in several books, including Unknown Mexico and New Trails in Mexico, but, because photographic publishing was then in its infancy, most of the images were poorly printed, badly cropped, or reworked by "illustrators" using crude techniques. Among Unknown Tribes presents more than two hundred of Lumholtz's best photographs—many never before published—from the archives of the American Museum of Natural History in New York and the Museum of Cultural History in Oslo, Norway. The images are newly scanned, most from the original negatives, and printed uncropped, disclosing a wealth of previously hidden detail. Each photograph is fully identified and often amplified by Lumholtz's own notes and captions. Accompanying the images are essays and photo notes that survey Lumholtz's career and legacy, as well as what his photographs reveal about the "unknown tribes." By giving Lumholtz's photographs the high-quality reproduction they deserve, Among Unknown Tribes honors not only the Norwegian explorer but also the native peoples who continue to struggle for recognition and justice as they actively engage in the traditional customs that Lumholtz recorded.

The New York Times Index Simon and Schuster Ecology and Wonder celebrates Western Canada's breathtaking landscape. The book makes several remarkable claims. The greatest cultural achievement in the mountain region of western Canada may be what has been preserved, not what has been developed. Protecting the spine of the Rocky Mountains will preserve crucial ecological functions. Because the process of ecosystem diminshment and species loss has been slowed, an ecological thermostat has been kept alive. This may well be an important defence against future impacts of climate change in the Canadian West.

Atlanta Magazine Semar Publishers Srl On Mother's Day night, 2004, award-winning fourth grade teacher Nancy Seaman left the Tudor home she shared with her husband of thirty two years in the gated community of Farmington Hills, near Detroit, Michigan, and drove in a driving rain storm to Home Depot, to purchase a hatchet. Three days later, police discovered the mutilated body of Bob Seaman - a successful auto industry engineer, softball coach and passionate collector of vintage Mustangs - in the back of the family's Ford Explorer. As the shackles were placed on her wrists, Nancy Seaman asserted that her husband

had been beating her, and she'd killed him in self-defense. At her trial, two radically different stories emerged. One of the couple's sons, Greg, testified that his father had been abusing his mother for years. The other, Jeff, testified for the prosecution, charging his mother as a cold blooded killer. Joyce Maynard's chilling work delves beyond the events of the crime itself, to explore the lives of an American family who seemed to have everything. Her exploration of the story led to a year's research in suburban Detroit - but the story she found there will take the reader to the Depression-era farm country of Illinois, the working class neighborhoods of the auto industry in its heyday and even, surprisingly, to a Baptist church in burned-out downtown Detroit. Along the way we meet a Transylvanian forensic pathologist, a beautiful young prosecutor, an old-school police chief, a television news crew hungry for ratings, the softball scorekeeper mom accused of carrying on an affair with the murdered man, and her two shell shocked teenagers, still reeling from the death of their beloved coach, and a mother who has to tell her daughter why her favorite teacher won't be in school any more. As in Joyce Maynard's previous books - including To Die For, based on a true crime, and her best selling memoir, At Home in the World - Joyce Maynard's themes here involve family secrets, the deep fissures that lie below the surface of the glittering exteriors, and the deep, potentially fatal, fissures in the American Dream. Written to commemorate the Bicentennial in 1976, James A. Michener 's magnificent saga of the West is an enthralling celebration of the frontier. Brimming with the glory of America 's past, the story of Colorado—the Centennial State—is manifested through its people: Lame Beaver, the Arapaho chieftain and warrior, and his Comanche and Pawnee enemies; Levi Zendt, fleeing with his child bride from the Amish country; the cowboy, Jim Lloyd, who falls in love with a wealthy and cultured Englishwoman, Charlotte Seecombe. In Centennial, trappers, traders, homesteaders, gold seekers, ranchers, and hunters are brought together in the dramatic conflicts that shape the destiny of the legendary West—and the entire country. BONUS: This edition includes an excerpt from James A. Michener's Hawaii. Praise for Centennial "A hell of a book . . .
