When installing or servicing an air conditioning or refrigeration system, two of the most important tasks performed by technicians are refrigerant recovery and system evacuation. In order to perform

these tasks properly, and in a safe manner, technicians need to understand the theory behind them, having a working knowledge of the equipment and tools used, and employ accepted industry best practices. This e-book walks through each step of both tasks, while covering safety, theory, and application. Also covered are leak detection methods and filter drier use. System Recovery and Evacuation was written by HVACR instructors for HVACR instructors to provide sound, relevant information in a single source. This e-book provides students and practicing technicians with the information and knowledge necessary to understand refrigerant recovery, system evacuation, leak detection, and filter driers. It is full of color illustrations and includes worksheets

that provide students and practicing technicians with the information and knowledge necessary to accurately and safely install or service air conditioning and refrigeration systems. The end of the e-book contains fill-in-the-blank questions that review the content of the entire manual.

The sport compact performance market is hot and getting hotter - and while the Honda Civic and Acura Integra have long been the dominant players in the market, a newcomer is emerging as a popular car for performance modifications - The Ford Focus. Well-built, inexpensive, good looking, and easy to modify, the Focus is

quickly catching the Hondas in terms of market popularity. This book shows Focus owners exactly what it takes to improve their car's performance, from simple modifications like installing a new air intake to radical mods like installing a turbocharger. The author also shows what those modifications can do, with before-and-after dyno tests for each modification. There's also extensive info on suspension and brake modifications for better handling and braking. It's a one-stop shop for those who want a sharper, faster Focus. Gold Medal Winner, Success and Motivation, 2011 Axiom Business Book Awards Insight from leaders who experienced major setbacks and redefined success In tough economic times, when careers are derailed and leaders are forced to rewrite their professional plans, this book enlightens and uplifts.

Comebacks features an all-star cast of ten leaders who endured setbacks-for some a public fall in the midst of media scrutiny-then reassessed and moved ahead with

new purpose. Based on revealing interviews, the book presents a behind-the-scenes glimpse into the lives of leaders; how they drew upon resources, both internal and external, to move on; and the lessons that helped them redefine success. Leaders profiled include: Jacques Nasser, former CEO of Ford Motor Co., recently appointed Chairman of BHP Billiton, the world's largest natural resources company Patricia Dunn, former Chair of Hewlett-Packard, vilified for her alleged role in corporate espionage only to be exonerated from all charges, today active in philanthropy Jamie Dimon (JP Morgan), Herbert "Pug" Winokur (Enron Corp.), David Neeleman (JetBlue), and more Redmond, a top executive recruiter, and Crisafulli, author of The House of Dimon, show how all leaders face adversity, but true leaders turn adversity

into success.

Car and Driver Edmunds Publications Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's

even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and

has been interviewed on the Today show, NBC Nightly News, and other television programs.
