The Japanese

automotive

industry enjoyed

spectacular success

in the 1980s. This

was largely due to

the so-called 'Lean

Production

System' - the

combination of an

efficient

production system,

an effective

supplier system, and transfer Japanese a product

development

system. In the 1990s

the industry fell on

hard times because

of the Japanese

asset price bubble

and extreme

currency

appreciation. In this

book, eminent

industry specialist

Koichi Shimokawa

draws on his thirty

years of research

and fieldwork with

Japanese and

American firms, to

show how the

Japanese

automotive

industry has

managed to recover

from this difficult

period. He shows

how firms like

Toyota were able to

systems to overseas

plants and how they

have changed in

order to compete in

increasingly

globalized markets.

In addition, the

book also addresses

the two major

challenges to the

current industry

model: the rise of

China and the

environmental and

energy supply

situation.
