How do the rich get rich? An
updated edition of the
"remarkable" New York Times
bestseller, based on two
decades of research (The
Washington Post). Most of the
truly wealthy in the United
States don't live in Beverly
Hills or on Park Avenue. They
live next door. America's
wealthy seldom get that way
through an inheritance or an
advanced degree. They bargain-
shop for used cars, raise
children who don't realize
how rich their families are,
and reject a lifestyle of
flashy exhibitionism and
competitive spending. In
fact, the glamorous people
many of us think of as "rich"
are actually a tiny minority
of America's truly wealthy
citizens—and behave quite
differently than the
majority. At the time of its
first publication, *The
Millionaire Next Door* was a
groundbreaking examination of
America's rich—exposing for
the first time the seven
common qualities that appear
over and over among this
exclusive demographic. This
edition includes a new
foreword by Dr. Thomas J.
Stanley—updating the original
content in the context of the

financial crash and the twenty-first century. "Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today's earn-and-consume culture." -Library Journal
