American Cars, 1973-1980 Chilton's Maximanuals

The automotive industry underwent great change in the 1960s and the early 1970s. The continuing trend toward market consolidation, the proliferation of sizes and nameplates, and the "need for speed" characterized this period, loosely labeled as the muscle car era. This is an exhaustive reference work to American made cars of model years 1960 - 1972. Organized by year (and summarizing the market annually), it provides a yearly update on each make's status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options and their prices, curb weight and dimensions (interior and exterior), paint color choices, changes from the previous year's model, and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate. The book is profusely illustrated with 1,018 photographs.

MVMA Specifications Form - Passenger Car: Gran Am. 1988 Signet

In Standard Catalog of Pontiac 1926-2002, collectors can speed through thousands of listings to obtain specifications, production data, and serial number information for their favorite Pontiacs. Brakes, Steering, Suspension

Reports on more than 150 new cars and compact vans provide such valuable information as specifications, ratings, suggested retail prices, and dealer invoice prices. Original.

Standard Catalog of Pontiac, 1926-2002

The 1973 oil crisis forced the American automotive industry into a period of dramatic change, marked by stiff foreign competition, tougher product regulations and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin, muscle cars and the

massive "need-for-speed" engines of the late '60s were out, and fuel efficient compacts were in. By 1980, American manufacturers were churning out some of the most feature laden, yet smallest and most fuel efficient cars they had ever built.

This exhaustive reference work details every model from each of the major American manufacturers from model years 1973 through 1980, including various "captive imports" (e.g. Dodge's Colt, built by Mitsubishi.) Within each model year, it reports on each manufacturer's significant news and details every model offered: its specifications, powertrain offerings, prices, standard features, major options, and production figures, among other facts. The work is heavily illustrated with approximately 1,300 photographs.

Automobile Book 1998

Chassis service is fast becoming one of the most frequently serviced areas of the modern vehicle. This valuable reference contains the most-used diagnostic and service procedures for the brake, steering and suspension systems of popular domestic and import cars.
