## Ward's Automotive Yearbook Getty Publications

On October 14-19, 1990, the 6th International Conference on the Conservation of Earthen Architecture was held in Las Cruces, New Mexico. Sponsored by the GCI, the Museum of New Mexico State Monuments, ICCROM, CRATerre-EAG, and the National Park Service, under the aegis of US/ICOMOS, the event was organized to promote the exchange of ideas, techniques, and research findings on the conservation of earthen architecture. Presentations at the conference covered a diversity of subjects, including the historic traditions of earthen architecture, conservation

and restoration, site preservation, studies in consolidation and seismic mitigation, and examinations of moisture problems, clay chemistry, and microstructures. In discussions that focused on the future, the application of modern technologies and materials to site conservation was urged, as was using scientific knowledge of existing structures in the creation of new, low-cost, earthen architecture housing. *El Automovil americano* Kiplinger's Personal Finance The most trustworthy source of information available today on savings and investments, taxes, money management, home ownership and many other personal finance topics. statistics.

The Washington Post Index Vintage  
This blistering novel—from the bestselling,  
Pulitzer Prize – winning author of The  
Road—returns to the Texas-Mexico border,  
setting of the famed Border Trilogy. The time  
is our own, when rustlers have given way to  
drug-runners and small towns have become

free-fire zones. One day, a good old boy named  
Llewellyn Moss finds a pickup truck surrounded  
by a bodyguard of dead men. A load of heroin  
and two million dollars in cash are still in the  
back. When Moss takes the money, he sets off a  
chain reaction of catastrophic violence that not  
even the law – in the person of aging,  
disillusioned Sheriff Bell – can contain. As Moss  
tries to evade his pursuers – in particular a  
mysterious mastermind who flips coins for  
human lives – McCarthy simultaneously strips  
down the American crime novel and broadens  
its concerns to encompass themes as ancient as  
the Bible and as bloodily contemporary as this  
morning ' s headlines. No Country for Old  
Men is a triumph.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

### The Exploited Child Krause Publications Incorporated

This investigation of child labor explores difficult conceptual and public policy issues. It demonstrates the sheer prevalence of the commercial exploitation of child labor in both industrial and developing countries, and its rapid growth today under the twin pressures of mass poverty and the globalized marketplace for labor. In addition to its rich empirical material from countries in Asia, Latin

---

America, Africa, and Europe, the author makes a clear distinction between the socialization of children through labor within the family and their economic exploitation for profit. It also focuses on the role of adults with responsibility for children, and the specific form which paternal domination takes towards children.

inner workings of business and how people can work together more effectively than Jon Katzenbach. His groundbreaking research has resulted in several important books, including *The Wisdom of Teams* and *Real Change Leaders*. Over the past several years he has turned his attention to one of the perennial questions of leaders everywhere: How do I motivate my employees? Most everyone frets about how to devise schemes that will keep the troops revved up. Conventional wisdom—or at least the practice at most companies—often centers on money as the primary motivating force. Many also rely on intimidation, which like money generally has a short-term impact. But what Katzenbach has found in his research at many organizations is that both of these practices do little to build the long-term sustainability of an organization. For that you need a powerful force that has been—until this point—understood by few managers and implemented by fewer still: pride. From the front lines to the executive suite, most people are motivated by feelings of accomplishment, approval, and camaraderie. It's why the best employees strive well beyond performance levels that will yield them higher pay and why most true

---

professionals relentlessly avoid retirement. Why does Southwest Airlines consistently turn in the highest levels of performance and profitability of any company in the airline business? What can the U.S. Marines teach us about individual commitment that can be used in the for-profit world? How is General Motors overcoming its history of labor-management enmity through the efforts of “pride-builders” from both the union and the management side? By drawing on what he has learned from these and many other organizations, Jon Katzenbach provides a practical program for understanding the role of pride: •

Money is not the motivator most people think it is: Katzenbach shows why pay-for-performance programs by themselves result in employees who focus on self-serving behavior and skin-deep organizational commitment. • Money tends to be a short-term motivational device and works best during times of growth, but pride works in bad times as well as good. • Cultivating pride is an investment that yields high returns on workforce performance over time and is not nearly as costly as relying solely on monetary compensation and the turnover risks that accompany a “show me the money” culture. Katzenbach shares

---

unique insights and specifics about how the best mid-level pride-builders take advantage of the world ' s greatest motivational force even in environments as challenging as General Motors and Aetna. He shows how managers at every level are missing a powerful lever if they are not instilling pride as a primary force for building their organization. Also available as an eBook.
