On October 14-19, 1990, the 6th International Conference on the Conservation of Earthen Architecture was held in Las Cruces, New Mexico. Sponsored by the GCI, the Museum of New Mexico State Monuments, ICCROM, CRATerre-EAG, and the National Park Service, under the aegis of US/ICOMOS, the event was organized to promote the exchange of ideas, techniques, and research findings on the conservation of earthen architecture. Presentations at the conference covered a diversity of subjects, including the historic traditions of earthen architecture, conservation and restoration, site preservation, studies in consolidation and seismic mitigation, and examinations of moisture problems, clay chemistry, and microstructures. In discussions that focused on the future, the application of modern technologies and materials to site conservation was urged, as was using scientific knowledge of existing structures in the creation of new, low-cost, earthen architecture housing.

Ward's Motor Vehicle Facts & Figures

This investigation of child labor explores difficult conceptual and public policy issues. It demonstrates the sheer prevalence of the commercial exploitation of child labor in both industrial and developing countries, and its rapid growth today under the twin pressures of mass poverty and the globalized marketplace for labor. In addition to its rich empirical material from countries in Asia, Latin America, Africa, and Europe, the author makes a clear distinction between the socialization of children through labor within the family and their economic exploitation for profit. It also focuses on the role of adults with responsibility for children, and the specific form which paternal domination takes towards children.

The book that turns our understanding of motivation on its head . . . and shows why most companies get it wrong. There are few people with more experience and accumulated wisdom about the inner workings of business and how people can work together more effectively than Jon Katzenbach. His groundbreaking research has resulted in several important books, including The Wisdom of Teams and Real Change Leaders. Over the past several years he has turned his attention to one of the perennial questions of leaders everywhere: How do I motivate my employees? Most everyone frets about how to devise schemes that will keep the troops revved up. Conventional wisdom—or at least the practice at most companies—often centers on money as the primary motivating force. Many also rely on intimidation, which like money generally has a short-term impact. But what Katzenbach has found in his research at many organizations is that both of these practices do little to build the long-term sustainability of an organization. For that you need a powerful force that has been—until this point—understood by few managers and implemented by fewer still: pride. From the front lines to the executive suite, most people are motivated by feelings of accomplishment, approval, and camaraderie. It ' s why the best employees strive well beyond performance levels that will yield them higher pay and why most true professionals relentlessly avoid retirement. Why does Southwest Airlines consistently turn in the highest levels of performance and profitability of any company in the airline business? What can the U.S. Marines teach us about individual commitment that can be used in the for-profit world? How is General Motors overcoming its history of labor-management enmity through the efforts of “ pride-builders ” from both the union and the management side? By drawing on what he has learned from these and many other organizations, Jon Katzenbach provides a practical program for understanding the role of pride: • Money is not the motivator most people think it is: Katzenbach shows why pay-for-performance programs by themselves result in employees who focus on self-serving behavior and skin-deep organizational commitment. • Money tends to be a short-term motivational device and works best during times of growth, but pride works in bad times as well as good. • Cultivating pride is an investment that yields high returns on workforce performance over time and is not nearly as costly as relying solely on monetary compensation and the turnover risks that accompany a “ show me the money ” culture. Katzenbach shares unique insights and specifics about how the best mid-level pride-builders take advantage of the world ' s greatest motivational force even in environments as challenging as General Motors and Aetna. He shows how managers at every level are missing a powerful lever if they are not instilling pride as a primary force for building their organization. Also available as an eBook.

Standard Catalog of American Cars, 1805-1942

This blistering novel—from the bestselling, Pulitzer Prize – winning author of The Road—returns to the Texas-Mexico border, setting of the famed Border Trilogy. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of

heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law – in the person of aging, disillusioned Sheriff Bell – can contain. As Moss tries to evade his pursuers – in particular a mysterious mastermind who flips coins for human lives – McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning ' s headlines. No Country for Old Men is a triumph. The Washington Post Index
