Documents specifications, repairs, and servicing procedures for individual models, and provides information on component repair and overhaul

DA Pam Operator, Organizational, and Direct Support Maintenance Manual Catalog of Copyright Entries. Third Series

Fundamentals of Medium/Heavy Duty Commercial Vehicle Systems, Second Edition offers comprehensive coverage of basic concepts and fundamentals, building up to advanced instruction on the latest technology coming to market for medium- and heavy-duty trucks and buses. This industry-leading Second Edition includes six new chapters that reflect state-of-the-art technological innovations, such as distributed electronic control systems, energy-saving technologies, and automated driver-assistance systems.

Operator and Organizational Maintenance Manual Transportation Research Board

This report should be of interest to transit bus maintenance managers and others interested in the development of written transit bus maintenance procedures, or "practices," and the sharing of these practices with others in the transit industry. The report provides guidance on how to develop effective transit bus maintenance practices tailored to one's local operating environment. It provides seven sample practices developed using the guidance. Complementing this report is an on-line Web Board sponsored by the Transportation Research Board's Committee on Transit Fleet Maintenance. This Web Board allows transit agencies to post their maintenance practices for others to review, revise as necessary for their own operating conditions, and use. The report provides instructions on how to access

the Web Board, use it to develop maintenance practices, and share these practices among transit agencies.

[Monthly Catalogue, United States Public Documents](#) W G Nichols Pub

This synthesis will be of interest to transit agency staff responsible for vehicle maintenance and planning at their agencies. Staff can use this report to learn from the experiences of other agencies, as well as to compare their experiences with those of other agencies. It documents and summarizes transit agency experiences, using various maintenance productivity improvements and programming. The report summarizes the experiences of agencies that vary in size, union affiliation, and operating conditions. It provides descriptions of successful programs and creative modifications to existing programs.
