This synthesis
will be of interest
to transit agency
staff responsible
for vehicle
maintenance and
planning at their
agencies. Staff
can use this
report to learn
from the
experiences of

other agencies, as well as to compare their experiences with those of other agencies. It documents and summarizes transit agency experiences, using various maintenance productivity improvements and programming. The report summarizes the experiences of agencies that vary in size, union affiliation, and operating conditions. It provides descriptions of successful programs and creative modifications to existing programs.

Transportation Research Board
The Preventive Maintenance Monthly is an official publication of the Army, providing information for all soldiers assigned to combat and combat duties. The magazine covers issues concerning maintenance, maintenance procedures and supply problems.

The Secretary's Annual Report to Congress Jones & Bartlett Learning
This report should be of interest to transit bus maintenance managers and others interested in the development of

written transit bus maintenance procedures, or "practices," and the sharing of these practices with others in the transit industry. The report provides guidance on how to develop effective transit bus maintenance practices tailored to one's local operating environment. It provides seven sample practices developed using the guidance. Complementing this report is an on-line Web Board sponsored by the Transportation Research Board's Committee on

Transit Fleet Maintenance. This Web Board allows transit agencies to post their maintenance practices for others to review, revise as necessary for their own operating conditions, and use. The report provides instructions on how to access the Web Board, use it to develop maintenance practices, and share these practices among transit agencies. *Department of the Army Pamphlet Fundamentals of Medium/Heavy Duty*

Commercial Vehicle Systems, Second Edition offers comprehensive coverage of basic concepts and fundamentals, building up to advanced instruction on the latest technology coming to market for medium- and heavy-duty trucks and buses. This industry-leading Second Edition includes six new chapters that reflect state-of-the-art technological innovations, such as distributed electronic control

systems, energy-saving technologies, and automated driver-assistance systems. [Index of Technical Publications Documents specifications, repairs, and servicing procedures for individual models, and provides information on component repair and overhaul](#) **Society of Automotive Engineers [preprints].** For more than 40 years, Computerworld has been the leading

source of technology news and information for IT influencers worldwide.

Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.
