Excerpt: The Suzuki Cultus is a supermini first presented at the 25th Tokyo Motor Show, formally introduced to the Japanese domestic market in 1983 and ultimately manufactured in seven countries across three

generations and marketed worldwide under more than a dozen nameplates - prominently as the Suzuki Swift, Geo Metro, Chevrolet Metro and also known as Suzuki Margalla in Pakistan. Offered across its lifespan in four body-style variations with engines from the Suzuki G engine family, the Cultus remains in production in Pakistan. The name Cultus derives from the Latin cultus, meaning "care" or "adoration." The first generation of the Cultus was designed and developed by Suzuki for the Japanese Domestic Market (JDM) and introduced as the 1983 SA310, the name shortly thereafter changed to Cultus. GM and Suzuki had formed an alliance in 1981, and so GM was able to market the Cultus as a captive import, introducing it to the North American market as the 1985 Chevrolet Sprint. 3= 3-dr hatchback5= 5-dr hatchback Initially marketed as the SA-310 Also Hawaii, Guam, N. Marianas and test marketing USA 48 states. Canada's "Chevrolet" Sprint model ran through 1991 Manufactured at GM Colmotores, Bogota, Colombia 1989-1991 Suzuki Swift GA 3-door hatchback...

Consumer Reports January-December 2003 Dundurn

Don't these boys get it? How many times must they get into trouble before they catch on? Best friends William and Thomas are back at it again with even more action and adventure. The poor community of Itchygooney isn't safe when William has a plan. This time there's an attack drone, a ghostly rocking chair, a slam-dunking wizard, and a UFO. Will these boys ever be stopped? Let's hope not! Back 4 More is the fourth book in the ongoing I Told You So series of humorous stories shared in short standalone bursts. If they were any longer you couldn't handle it!

*Car and Driver* McFarland

For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years.

*Lemon-Aid Used Cars and Trucks 2012-2013* FriesenPress

Presents the latest safety ratings, dealer prices, fuel economy, insurance premiums, maintenance costs, and tires of new model automobiles.

New car and minivan rating guide. *The New York Times Index*  
Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki

#### The Car Book 2004

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality.

There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."

#### **On a Global Mission: The Automobiles of General Motors International Volume 3**

This study chronicles the success of the Japanese car in America. Starting with Japan's first gasoline-powered car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan; the arrival of Japanese cars in California in the late 1950s; consumer and media reactions to Japanese manufacturers; what obstacles they faced; initial sales; and how the cars gained popularity through shrewd marketing. Toyota, Honda, Datsun (Nissan), Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their origins through the present. An examination follows of the forced cooperation between American and Japanese manufacturers, the present state of the industry in America, and the possible future of this union, most importantly in the race for a more environmentally-sound vehicle.
