[The Book of the Jihad of 'Ali ibn Tahir al-Sulami \(d. 1106\)](#) High/Scope Foundation

In 1105, six years after the first crusaders from Europe conquered Jerusalem, a Damascene Muslim jurist named 'Ali ibn Tahir al-Sulami (d. 1106) publicly dictated an extended call to the military jihad (holy war) against the European invaders. Entitled Kitab al-Jihad (The Book of the Jihad), al-Sulami's work both summoned his Muslim brethren to the jihad and instructed them in the manner in which it ought to be conducted, covering topics as diverse as who should fight and be fought, treatment of prisoners and plunder, and the need for participants to fight their own inner sinfulness before turning their efforts against the enemy. Al-Sulami's text is vital for a complete understanding of the Muslim reaction to the crusades, providing the reader with the first contemporary record of Muslim preaching against the crusaders. However, until recently only a small part of the text has been studied by modern scholars, as it has remained for the most part an unedited manuscript. In this book Niall Christie provides a complete edition and the first full English translation of the extant sections (parts 2, 8, 9 and 12) of the manuscript of al-Sulami's work, making it fully available to modern readers for the first time. These are accompanied by an introductory study exploring the techniques that the author uses to motivate his audience, the precedents that influenced his work, and possible directions for future study of the text. In addition, an appendix provides translations of jihad sermons by Ibn Nubata al-Fariqi (d. 985), a preacher from Asia Minor whose rhetorical style was highly influential in the development of al-Sulami's work.

This book outlines the effects that technology-induced change will have on sport within the next five to ten years, and provides food for thought concerning what lies further ahead. Presented as a collection of essays, the authors are leading academics from renowned institutions such as Massachusetts Institute of Technology, Queensland University of Technology, and the University of Cambridge, and practitioners with extensive technological expertise. In their essays, the authors examine the impacts of emerging technologies like artificial intelligence, the Internet of Things, and robotics on sports and assess how they will change sport itself, consumer behavior, and existing business models. The book will help athletes, entrepreneurs, and innovators working in the sports industry to spot trendsetting technologies, gain deeper insights into how they will affect their activities, and identify the most effective responses to stay ahead of the competition both on and off the pitch.

HE'S HELL ON WHEELS. Tall, dark, and dangerously handsome, Zane "Tracker" Colter is the strong, silent type of tattooed muscle biker who drives women wild. But as a master of strategy for the outlaw MC club, Sinner's Tribe, he doesn't have time to play around with groupies and biker chicks-especially when he can't stop thinking about Evie, the girl who got away... SHE'S PLAYING WITH FIRE. Evie's been in love with Zane ever since they were children-until he broke her heart and disappeared. Now he's back in her life, bigger and badder than ever. Zane is stunned by how beautiful and confident Evie's become, using her artistic talent to customize motorcycles. He wants her so bad, he'd ride through fire to win her back. There's one problem: Evie is dating his deadliest rival-the leader of the Black Jacks-and if Evie and Zane hook up, there'll be hell to pay... in Sinner's Steel. The treatment of American Indians is discussed historically with reference to the 4 principal methods used to create or perpetuate false impressions: obliteration, defamation, disembodiment, and disparagement. Indian contributions to American civilization are cited in contrast with historical references to Indians in textbooks. The author suggests specific reading materials for various age levels which reflect accurately the cultural contributions of the Indian. A bibliography on the American Indian influence on American civilization is appended. (Jh).

[Proficient Motorcycling](#) Routledge

This best-selling book is also " #1 book in motorcycle safety " (Nielsen BookScan) and essential reading for all motorcyclists regardless of their years of experience. Author David L. Hough, a revered motorcycle author, columnist, and riding-safety consultant, lays out a clear course for all riders who want to sharpen their handling skills and improve their rides. This second edition, expanded and now in full color, offers new riders and road warriors the exact kind of advice they need to be prepared for anything when on the road, how to avoid accidents, and how to handle the unexpected. Hough, who began motorcycling in the 1960s, tackles every imaginable topic—from the mechanics of the bike, selection of the right-sized bike, and basic riding skills to night riding, group outings, and advanced survival tactics. In the chapter called " Motorcycle Dynamics, " Hough spells out the equipment needed and basic skills required to control a bike, and specifically keeping the rider's safety and ability to avoid potentially injurious or fatal crashes. The author is outspoken and direct when it comes to safety, and he emphasizes the importance of the rider's braking abilities and spells out how to improve them. The chapter offers six tried-and-true techniques for quick-stop tactics, critical for every rider to understand and master. He also addresses other vital skills that riders need to evaluate and improve, such as turning, maintaining balance and stability, and steering. He defines, compares, and analyzes the ins and outs of steering and control: direct steering, countersteering, push steering, out-tracking, coning, u-turns, and directional control. The chapter called " Cornering Habits " is a virtual master class in acceleration, deceleration, use of weight, throttle, leaning, and handling challenging terrain. Hough's skill as a photographer and illustrator adds a graphic element to his books that leads to immediate understanding of the concepts he explains. The detail offered in each section

of the book can only come from decades on the road, and the author is the consummate instructor, assigning homework to the readers in the form of exercises to practice and improve specific techniques that he outlines and illustrates in the text. Any rider who would venture out on the road without David Hough ' s voice in his head takes an unnecessary risk with his own life. Proficient Motorcycling takes riders from long, snaking country roads right into the traffic of the big city, and Hough offers the best advice for riders dealing with the most challenging conditions, whether it ' s road construction, snap-jawed intersections, skateboarders, or suddenly slippery road surfaces. A critical section of the book offers riders advice on how to deal with automobiles, including aggressive car drivers, oblivious SUV drivers, or " blind " truck drivers. The book offers the kind of first-hand experience that can literally save riders ' lives, as illustrated in the chapters " Booby Traps " and " Special Situations, " which offer evasive tactics and advice to avoid and handle everything from slick surfaces, curbs, and construction plates to ferocious dogs, hazardous wildlife, and difficult weather conditions. The final chapter of the book, " Sharing the Ride, " is geared toward experienced riders who travel together in groups or who travel with a second passenger on the bike. Topics covered are formation, packing for trips, communication between riders, sidecars, trikes, and more. The book concludes with a resources section of organizations, training schools, educational tools, and websites; a glossary of 80+ terms; and a complete index.

Marine Corps Reference Publication (MCRP) 3-02B. Marine Corps Martial Arts Program (MCMAP), is designed for Marines to review and study techniques after receiving initial training from a certified Marine Corps martial arts instructor or martial arts instructor trainer. It is not designed as a self-study or independent course. The true value of Marine Corps Martial Arts Program is enhancement to unit training. A properly implemented program can help instill unit esprit de corps and help foster the mental, character, and physical development of the individual Marine in the unit. This publication guides individual Marines, unit leaders, and martial arts instructors/instructor trainers in the proper tactics, techniques, and procedures for martial arts training. MCRP 3-02B is not intended to replace supervision by appropriate unit leaders and martial arts instruction by qualified instructors. Its role is to ensure standardized execution of tactics, techniques, and procedures throughout the Marine Corps. Although not directive, this publication is intended for use as a reference by all Marines in developing individual and unit martial arts programs. For policy on conducting martial arts training, refer to Marine Corps Order 1500.59, Marine Corps Martial Arts Program (MCMAP).  
WARNING Techniques described in this manual can cause serious injury or death. Practical application in the training of these techniques will be conducted in strict adherence with training procedures outlined in this manual as well as by conducting a thorough operational risk assessment for all training.
