The 300tdi engine is surely one of the most famous Land Rover engines. First produced in 1994, it came as an improvement of the 200TDi engine, with stronger components like the LDF500180 cylinder head. The big difference was obviously noise reduction and diesel emissions.

[Land Rover engines - Wikipedia](#)

The 300 Tdi Defender went into service in the "Green Fleet" from 1998. Before the 300Tdi engine was introduced, military Land Rovers were offered with 2.5-litre petrol and diesel engines, as well as the 3.5-litre V8 petrol. Trials with the Td5 engine proved it to be reliable in battlefield conditions.

The 300Tdi Engine - Land Rover Expedition

DIESEL ENGINE. Ingersoll-Rand 4 cycle vertical 6 cylinder Diesel power plant with a 10" bore and a 12" stroke. Rated at 600 rpm (550?) and 300 horsepower. Fuel was

direct injected using a rotating distributing valve (something that Ingersoll-Rand was very proud of as the parts were machined to such close tolerances that they had to be lubricated ...
Defender 300Tdi (23L) Engine Parts – Defenders Northwest
The Land Rover 300Tdi engine was an evolution upon the earlier 200Tdi with many improvements and refinements for better on road performance. However, it has the same capacity and power as its predecessor and slightly worse fuel consumption, which has lead some people to downgrade to the 200Tdi given the option.

OPERATION The 300 TDi is a 4 cylinder, water cooled, turbocharged diesel engine with a capacity of 2.5 litres.
