Over the years, incidents have been reported in newspapers and on television news that are simply illogical. Situations such as a vehicle pulling directly into the path of an approaching train, a person stepping in front of a speeding vehicle, and the operator of a vehicle crashing into a stationary object all seemingly avoidable. How was it possible that the victims did not see, hear, or feel that they were in imminent danger? In Blindspot, I present a hypothesis these accidents were not accidental but were, in fact, carefully perpetrated, from a distance, by entities tasked with righting a celestial wrong.

Since its introduction, the Skyline GT-R has been the undeniable king of the tuner CAR world. This book

explains why. Along with an overview of Skylines since their debut in 1957, Author Alex Gorodji gives in-depth reviews of the last four generations of GT-Rs, including the new-for-2008 V35 – the first iteration of the car to be sold in the U.S. Paying special attention to technical aspects such as the all-wheel steering and drive systems, the chassis, and the legendary six-cylinder twin-turbocharged engine, his work explains the GT-R to those who already admire the car, and to those who wonder what the excitement is all about.
