Over the years, incidents have been reported in newspapers and on television news that are simply illogical. Situations such as a vehicle pulling

---

directly into the path of an approaching train, a person stepping in front of a speeding vehicle, and the operator of a vehicle crashing into a stationary object all seemingly avoidable. How was it possible that the victims did not see, hear, or feel that they were in imminent danger? In *Blindspot*, I present a hypothesis: these accidents were not accidental but were, in fact, carefully perpetrated, from a distance, by entities tasked with righting a celestial wrong.
