This truck came into the shop with coolant mixing into the oil. After checking out the engine we found the oil cooler was the problem. The owner of the truck...

3406c cat engine coolant in the oil - YouTube

But if it is a 3406 then look on the exhaust side back of the side and should be a small pad in the block with some stamp # and that is serial #. And if you have some coolant in the oil you can save some time and pull oil pan and put about 10 or 12 psi of air pressure on the coolant have ever you have to do it for a few hrs. Watch for coolant on a piece of clean cardboard under the engine. It will not be easy to find and only you can do it.

The truck goes into Butler Cat on Monday. It  
should be ready to go by Thursday. Fresh overhaul,  
new pumps, new injectors, new rear main, and new  
clutch. I haven't decided on the oil cooler yet. It is  
the Cat Platinum kit. There will be a 4 year  
unlimited mile warranty on all parts installed and  
free towing if i do the oil cooler.
