350 Vortec Marine Engine Torque
5.7L GM Vortec V8 Base Marine Engine
One may consider that engines making torque at a lower rpm tend to work better in marine applications due to the fact that "most" boats tend to plane in the range of 2,000 - 3,000 rpm. It's not by chance that most marine engine manufacturers continue using the larger displacement - lower rpm, cast iron marine engines because of this fact.
4.3L (262) Complete Vortec engine - Marine Engine Blocks ...

Installed Vortec heads on a standard 1986 reman 5.7 motor with roller lifters. My manual only goes up to 1996. I torqued the head bolts 3 times and in the sequence the manual said to. 22lbs, 44lbs and then 66lbs. Is this the same torque specs for the vortec head ? What is the torque spec and sequence for the vortec intake manifold ?
