BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." – Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But *Factfulness* does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." –Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the

potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama

Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear

rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance... Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough.

But I hope this book will be.” illustrations, and fun tidbits from Hans Rosling, February 2017.

Is life insurance a bad investment? Don't I lose all my cash value when I die? Shouldn't I just make a bundle and invest it instead? What about my spouse or my kids-do they need life insurance? Can I borrow money from (or is it against?) a life insurance policy? My insurance advisor told me one thing about insurance, but my financial planner gave me different advice, and an expert on TV said something else entirely. What do I do now? Help! Every day,

people like you and me run into questions like these-and no good answers. The truth about life insurance is that myths, misunderstandings, and even outright lies cause a lot of uncertainty around what it is, how it works, who needs it and when, and-most importantly-the great benefits it can bring to your life. This book is here to clear up all that confusion. With combined experience of over fifty years in the life insurance industry, Kim Butler and Jack Burns know what's true and what isn't. They've seen what works and what fails. They've lived through every success and failure the industry can throw at them. And they're fed up with seeing smart, well-meaning people fall for costly half-truths and mix-ups because they just can't find the right information. Busting The Life Insurance Lies takes the 38 biggest, loudest myths around life insurance and breaks them

wide open. Whether you're wondering if life insurance is right for you, wanting to understand how it can help you while you're still alive, or even an insurance advisor yourself, this book will guide you to the answers you need to make the clearest, most informed decision-one you'll feel good about for the rest of your life.

America's elite have been using cash value life insurance to stockpile wealth for centuries. Used correctly, it is better described as a personal bank on steroids, and a financial bunker for tough times. To be clear, this book is not about the typical garbage peddled by most insurance agents. Rather, an alternative to the risky investment strategies taught by Wall Street. It details a highly efficient form of cash

value life insurance designed to supercharge your savings and stockpile wealth. A product so powerful it's responsible for the success of Walt Disney, JC Penney, Ray Kroc, and thousands of others. Here's what you'll discover: How the wealthy use this vehicle to create more wealth, take less risk, and create predictable income down the road Why banks and corporations place billions of dollars in this powerful vehicle How I earned over 300 percent returns leveraging my life insurance policies How you can create a safe, predictable foundation to enhance every financial decision you make How to win with taxes and keep more of the money you make While the information compiled into this book is valuable, you'll also find three case studies that show you exactly how it works. You'll be able to visually see how it grows, how it's accessed, as well as the future income that

can be taken. _____ Influencers of this book are Nelson Nash, his book "Becoming Your Own Banker: Unlock the Infinite Banking Concept"; Pamela Yellen, her book "Bank on Yourself"; Dwayne Burnell, his book "Financial Independence in the 21st Century - Life Insurance * Utilize the Infinite Banking Concept * Compliment Your 401K - Retirement Planning With Permanent Whole Life versus Term or Universal - Create Financial Peace"; and my Father Dan Thompson, and his book "The Banking Effect: Acquiring wealth through your own Private Banking System." I was introduced to these financial strategies at a young age, and this book represents the effort and energy on both the part of everyone of my mentors, these authors here, as well as my own diligence in learning about and implementing these very

same strategies into my personal finances. This book is designed to simplify some of the concepts surrounding cash value life insurance, such as Infinite Banking and Bank on Yourself, and make them easier to understand, stripping them down to the core benefits of cash value life insurance.

Every day, there are treasures to be discovered by anyone who will honestly come to hear the voice of the Savior in his Word. The Lord Jesus indicates that there is an added blessing for those who will write down the insights he gives by his instruction: ?Every scribe which is instructed unto the kingdom of heaven is like unto a man that is an householder, which bringeth forth out of his treasure things new and old? (Matthew

13:52). The poems in this book are the result of going to the Bible each day with an expectation that God has something very valuable to say. That expectation has NEVER been disappointed. Our risen Lord said, "I stand at the door and knock. If any man hears My voice and opens the door, I will come into him and will sup with him, and he with Me" (Revelation 3:20). This intimate, two-way communion with God is offered to all those who have received the Lord Jesus Christ (John 1:12) and thereby "have received, not the spirit of the world, but the Spirit which is of God, that we might know the things that are freely given to us by God" (1 Corinthians 2:12). My prayer is that God may use this book for his glory, for the encouragement of his own children, and for

the persuasion of those who may yet be awakened to their need of our Savior. "Blessed is the man that heareth Me, watching daily at My gates, waiting at the post of My doors" (Proverbs 8:34). Heaven is waiting. Don't miss it for the world.

At midnight on the historic night of July 29, 1971, High Priest Anton LaVey sat down with journalist Jack Fritscher in the dramatic

sanctuary of his Church of Satan in San Francisco to speak frankly about the role of the Satanic Church and Satanism in the ongoing revolution around sex, race, and gender. This seminal interview, conducted in the fifth Satanic Year, is the first and earliest in-depth interview given by Anton LaVey whose Satanic Bible was published only two years before in 1969. Marcello Truzzi wrote in Fate magazine: "This is the most candid and informative interview that Anton LaVey has given anyone for publication to date." LaVey and Fritscher hit it off. LaVey responds graciously, humorously, and definitively about how and why he founded his Church while he addresses American religions, white wicca, the Manson Family, and the death of Jayne Mansfield. He sets the record straight declaring to Fritscher that he played the Devil in Roman Polanski's Rosemary's Baby.

Growing more golden over the past fifty years, this interview has entered the classic "Canon of Satanic Literature" in the Church of Satan. Certainly, the candid conversation catches one of the most intriguing men of the 20th century around the moment when the Swinging 1960s became the Titanic 1970s that helped shaped the myth, magic, and mysticism of our new century. Here is the truth of what Anton LaVey said. He himself frequently endorsed the accuracy. This is the original question and answer format of the interview.

Detective Milo Sturgis and psychologist Alex Delaware, is a city of the dead. Early one morning, the two of them find themselves in a neighborhood of pretty houses, pretty cars, and pretty people.
